The Shadow-Boxing Woman Kodansha America LLC

In the blazing July heat of imperial Rome, Flavia Albia inspects a decomposing corpse. It has been discovered in lots to be auctioned by her family business, so she's determined to identify the dead man and learn how he met his gruesome end. The investigation will give her a chance to work with the magistrate,

Manlius Faustus, the friend she sadly knows to be the last chaste man in Rome. But he's got other concerns than her anonymous corpse. It's election time and with democracy for sale at Domitian's court, tension has come to a head. Faustus is acting as an agent for a 'good husband and father', whose traditional family values are being called into question. Even more disreputable are his rivals, whom Faustus wants Albia to discredit. As Albia's and Faustus' professional and personal partnership deepens they have to accept that, for others, obsession can turn sour, and become a deadly strain that leads, tragically, to murder.

Citizen Quinn tells the staggering story of the rise and fall of Ireland's richest man: Sean Quinn. A few years ago, Sean Quinn was ranked among the two hundred richest people in the world, with a personal fortune of some \$6 billion. Today he is bust, and his businesses have been taken from him. How did it all happen? In *Citizen Quinn*, Ian Kehoe and Gavin Daly trace the remarkable life of the 'simple farmer's son' who made most of his money through guts and graft long before the excesses of the Celtic Tiger, who brought economic vibrancy to a depressed border region, and who then lost it all through a disastrous move into the insurance business and a multi-billion-euro gamble on the shares of the world's most toxic bank. 'Gripping and well-researched ... paints a picture of a man who is delusional about what has happened and the extent to which he is to blame' Irish Times 'For all those intrigued by by a small Cavan farmer's son came to be one of the richest men in the world, and then lost it all, Citizen Quinn is a must-read' Sunday Business Post 'The book chronicles this truly compelling story, and the story of a compelling man' Irish Mail on Sunday 'A gripping story told in language that people without an MBA can follow' Irish Independent 'A great read' Sean O'Rourke, RTE Radio One

Disruptive technology is one of the defining economic trends of our age, transforming one major industry after another. But what is the true impact of such disruption on the world's economies, and does it really have the potential to solve global problems such as low growth, inequality and environmental degradation? The provocative answer is that such disruption could indeed solve many of these issues, but that it won't... at least, not on its current trajectory. *A Good Disruption* highlights some of the huge costs that are at stake, and argues that managing such disruption will be the defining business challenge of the next decade. In order for us to meet that challenge, the book sets out a bold and inspirational vision for a more robust and sustainable economic model. Rich in relevant case studies, and incorporating industry examples from around the world, *A Good Disruption* accomplishes the remarkable feat of synthesizing key contemporary trends into a coherent world view of how to seize the potential of our collective futures. This is essential reading for policy makers, politicians, business executives and social scientists, as well as anyone who wants a deeper understanding of the impact of disruptive technology and how it can be transformed into a major force for the global good.

Partial least squares is a new approach in structural equation modeling that can pay dividends when theory is scarce, correct model specifications are uncertain, and predictive accuracy is paramount. Marketers can use PLS to build models that measure latent variables such as socioeconomic status, perceived quality, satisfaction, brand attitude, buying intention, and customer

loyalty. When applied correctly, PLS can be a great alternative to existing covariance-based SEM approaches. Dr. Ken Kwong-Kay Wong wrote this reference guide with graduate students and marketing practitioners in mind. Coupled with business examples and downloadable datasets for practice, the guide includes step-by-step guidelines for advanced PLS-SEM procedures in SmartPLS, including: CTA-PLS, FIMIX-PLS, GoF (SRMR, dULS, and dG), HCM, HTMT, IPMA, MICOM, PLS-MGA, PLS-POS, PLSc, and QEM. Filled with useful illustrations to facilitate understanding, you'll find this guide a go-to tool when conducting marketing research. "This book provides all the essentials in comprehending, assimilating, applying and explicitly presenting sophisticated structured models in the most simplistic manner for a plethora of Business and Non-Business disciplines." — Professor Siva Muthaly, Dean of Faculty of Business and Management at APU.

La Operación Necora + es algo más que un libro, el tiempo lo ha consagrado como un referente para periodistas y escritores posteriores. Es un clásico presente en bibliotecas e instituciones nacionales y extranjeras. La Operación Necora + vino a cubrir un espacio vacío, hecho que resalta Jaime Mayor Oreja, ex Ministro del Interior, en el prólogo: "es un libro ameno, fácil de entender y fiable en su contenido por la exquisita labor de investigación". Iñaki Gabilondo, durante su presentación en Madrid, la considera "una obra maestra por lo que enseña y transmite, digna de un guion de película, aunque lo que relata es una cruda y triste realidad". El lector encontrará en sus páginas conversaciones tan increíbles como reales entre los capos y sus hombres o amantes, las mansiones de la droga, la vinculación entre los Jesuitas y el Pazo Baión (joya de Laureano Oubiña), las noches de la jet, la implicación de políticos, abogados, policas, militares argentinos... Datos inéditos respaldados con miles de documentos. A nadie deja indiferente! SOBRE EL AUTOR: Felipe Suárez (Vilagarcía de Arousa-Pontevedra, 1952) es periodista, está casado y tiene dos hijos. Desde su atalaya en la Cadena SER y la Agencia EFE, ha escudriñado el interior de las grandes mafias, sorteando trampas y amenazas. El cerebro de los capos encargó su muerte en dos ocasiones. En 1986 obtuvo el Premio Ondas y en 1990, Radio Nacional de España lo nombró Periodista del Año, concediéndole el Premio Ojo Crítico. En 1993 fue homenajeado por las Asociaciones de lucha contra la Droga, junto a Baltasar Garçon y Javier Zaragoza, Fiscal Especial Antidroga. En 1995 creó la Plataforma Galega contra el Narcotráfico, siendo en la actualidad Presidente de Honor de la FGCN, ente que gestiona bienes incautados. Steel your team against the unexpected by planning for uncertainty Extraordinary Outcomes presents an innovative

approach to thinking and planning, giving leaders a playbook for dealing with uncertainty. Written by internationally recognized authorities on problem solving and creativity in organizations, this book provides an alternative outlook on business strategy and people management for leaders navigating uncertain waters, where the future is anything but guaranteed. The framework is the result of research in multiple fields and the authors' experiences with individuals, teams, and organizations, with examples from real-world situations that illustrate the concepts and dynamics at work to give readers deeper insight. The focus is on conquering uncertainty – eliminating it where possible, reducing it where it can be reduced, and embracing it when it's inevitable. Traditional ways of thinking and planning do not work in the face of an uncertain future. Frequently there are just no guarantees, nothing written in stone, and even a fortune-teller couldn't accurately predict the outcome. Extraordinary Outcomes helps leaders prepare for that, with strategies geared toward preparedness and embracing uncertainty. Learn why skills and talent are only two pieces of a bigger puzzle Discover how to better galvanize the team, and keep them motivated long-term Connect to a purpose that inspires enthusiastic engagement Conquer uncertainty, and develop a strategy for dealing with mistakes No one likes to be caught off guard, and the consequences can be severe at the organizational level. Leaders can't be psychic, but they can plan for possible outcomes and always have a solution at the ready. For those who like to have an answer for everything, Extraordinary Outcomes provides a roadmap toward an uncertainty-proof strategy for doing business. Citizen Quinn Wiley

Glenn Gould was famous for his obsessions: the scarves, sweaters and fingerless gloves that he wore even on the hottest summer days; his deep fear of germs and illness; the odd wooden "pygmy" chair that he carried with him wherever he performed; and his sudden withdrawal from the public stage at the peak of his career. But perhaps Gould's greatest obsession of all was for a particular piano, a Steinway concert grand known as CD318 (C, meaning for the use of Steinway Concert Artists only, and D, denoting it as the largest that Steinway built). A Romance on Three Legs is the story of Gould's love for this piano, from the first moment of discovery, in a Toronto dept. store, to the tragic moment when the piano was dropped and seriously damaged

while being transported from a concert overseas. Hafner also introduces us to the world and art of piano tuning, including a central character in Gould's life, the blind tuner Verne Edquist, who lovingly attended to CD318 for more than two decades. We learn how a concert grand is built, and the fascinating story of how Steinway & Sons weathered the war years by supplying materials for the military effort. Indeed, CD318 came very close to

ending up as a series of glider parts or, worse, a casket. The book has already been lauded by Kevin Bazzana, author of the definitive Gould biography, who notes that Hafner "has clarified some old mysteries and turned up many fresh details."
