## **HODGES PERKINS**

---

*Advanced Level Physics* Trans-Atlantic  
Publications

Covers the New Zealand curriculum level  
8, NCEA level 3, Physics course.  
Suggested level: senior secondary.

### **Complete Guide O Level Physics**

Pearson Education South Asia

The Longman Complete Guide to 'O'  
Level Physics is specially written for  
students sitting for the 'O' level Physics

examination.

*Understanding Physics for Advanced  
Level* Longman

The third edition of this popular text  
retains the latest CXC CSEC syllabus  
coverage.

*Illustrated dictionary of physics : with an  
English - Arabic section & an Arabic -  
English glossary : the principles &  
concepts of physics illustrated and  
explained in English & Arabic* Longman  
Principles of Physics is a well-established  
popular textbook which has been  
completely revised and updated.

**Longman Advanced Level Physics**

Addison-Wesley Longman

This series provides teachers with the opportunity to teach the three sciences separately. This edition has been updated to match the 11-14 National Curriculum and the revised Common Entrance syllabus.

LQSG O Level Science-Physics Pearson Education India

Covers the entire A level core for physics. Each individual topic is cross-referenced to other sections so that students can refer to other relevant topics. The text can be read either from start to finish or topic by topic. This text promotes self-study.

Longman 'o' Level Science Physics

Workout (2e) Panpac Education Pte Ltd  
Revised and improved for all new

advanced level syllabuses, this pack pays particular emphasis to the new core and option topics and to the skills necessary to succeed in physics. Hundreds of experiments are discussed and worked examples presented.

**Longman Physics 11-14** Nelson Thornes

Text book covering the seventh form physics course. Topics include: experimental physics (errors and uncertainties), waves, mechanics, electricity and electromagnetism and atomic physics. The text also provides revision of sixth form physics and contains enough material for a two-year course. Suggested level: senior secondary.

A Level Course Physics 2 Pearson Education South Asia

Longman Revise Guides have been written and compiled by the people who set GCSE papers and mark them - the examiners. They cover exactly what students need to know, understand and revise in each subject for maximum success, so that students can approach their exams with confidence.

A-level Physics LONGMAN SCIENCE 11 TO 14

Longman Handbooks are pocket sized reference volumes which aim to explain clearly and concisely the terms and concepts likely to be used regularly by science students from GCSE to undergraduate level. The reader build up a full picture of specific subject areas and to enable the student to understand and distinguish between related words. particular term and full colour

explanatory illustrations and diagrams throughout.

Technician Physics Heinemann

Written by examiners specifically for this level, this contains an alphabetical listing of terms, ideas, definitions, facts and diagrams based on the A-level, AS level and Higher Grade Syllabus for Physics. Should be useful for students to check up on unfamiliar names, concepts and theories.

*Physics* Heinemann Educational Publishers

The step from GCSE to A-level physics can be daunting. This textbook is designed to help students make that transition smoothly. It is built around the core of common topics found in all A-level physics syllabuses, and the problems most frequently encountered

by students.

*Salter's Horner's AS/A Level Physics*

Pearson Education India

This book is written for the latest Physics GCE O Level syllabus. It is structured in a way to effectively increase the understanding of Physics concepts. The questions are grouped into units according to the major topics in the syllabus. Within each unit, similar questions are grouped together. In most groups, variables are added to each subsequent question to increase the difficulty level.

Principles of Physics Pearson Education South Asia

The second edition of this popular text has been updated to account for revision to the latest CXC syllabus, first examined in 2004.

**Physics** Pearson Education South Asia

This book is specially written for students sitting for the Singapore Cambridge O Level Physics examination. A comprehensive coverage of all the topics in the latest 2007 syllabus, as well as a specimen examination paper, enable students to revise effectively and achieve success in their examinations.

Longman 1001 Physics MCQs for O Level  
Longman

Written by GCSE examiners, this guide is designed to help students with the GCSE coursework that is marked and thus helps determine their grade. It displays sample material of what a student will actually submit and may be used in a free-standing capacity or as a supplement to any course textbook.

*Physics Alive!* Longman Publishing Group

The 'Longman Science 11-14' series aims to put science into context both historically and in the modern world as well as reinforcing and consolidating learning through questions, summaries and investigation ideas.

**Longman science Physics 9** Addison-Wesley Longman

This extensively revised 4th edition of an established physics text offers coverage of the recent developments at A/AS-Level, with each topic explained in straightforward terms, starting at an

appropriate Level (7/8) of the National Curriculum

Longman Science Physics<sup>10</sup> Longman Salters Horners AS/A level Physics Student Book 1.

Physics Longman International Education Division (a Pearson Education Company) Built around the common core of physics A Level syllabuses this book, which is one of a series of eight titles, covers all the compulsory content with the aim of promoting independent learning for post-16 students.
