This business book is different. Unlike every

other book you'll read with titles like "How To Craft The Perfect Business Plan in 89 Incredibly Simple Steps", this book is different. It's a simple "How To" guide for creating a Business Plan that's right for you and your business and also an easy to follow workbook. The workbook will guide you through the process you need to follow. It tells you the questions that you need to consider, the numbers you need (and how to get them), and supporting documents you need to gather. The main purpose of a business plan is to aid YOU in

running YOUR business. So the workbook has been designed for you to write the information in and refer back to as needed. If you need to supply your Business Plan to another party, such as a bank if you're looking for finance, then it's simple to type up the various sections for a professional document. Running your own business is both a challenging and daunting prospect. With a well-thought-out business plan in place (anticipating the challenges you'll face AND the solutions) it will be much less daunting and much more

exciting. Good luck! Molly

Business Proposals play an extremely vital role in today's competitive Business-2-Business (B2B) sales, as it represents the

supplier's offer and the value that they can provide to the buyer. Many sales organizations spend a lot of money on building strong Proposal Management practices. For individuals, it is a field that offers an extremely rewarding career. In the real world of Request for Proposals (RFPs) and their responses, one can see a lot of variations (based on Industry, organization type and other relevant factors). A one-size-fits-all scenario or format is never seen to exist. However, if fundamentals are understood well, then, addressing any variation of the RFP is not difficult. This book is a beginner's guide to understand Business Proposal

Management, written in a simple way to help aspiring individuals. If YOU are new to the World of Proposals, and want to understand it, then this book is JUST RIGHT FOR YOU!
