Subtle is the Lord is widely recognized as the definitive scientific biography of Albert Einstein. The late Abraham Pais was a distinguished physicist turned historian who knew Einstein both professionally and personally in the last years of his life. His biography combines a profound understanding of Einstein's work with personal recollections from their years of acquaintance, illuminating the man through the development of his scientific thought. Pais examines the formulation of Einstein's theories of relativity, his work on Brownian motion, and his response to quantum theory with authority and precision. The profound transformation Einstein's ideas effected on the physics of the turn of the century is here laid out for the serious reader. Pais also fills many gaps in what we know of Einstein's life - his interest in philosophy, his concern with Jewish destiny, and his opinions of great figures from Newton to Freud. This remarkable volume, written by a physicist who mingled in Einstein's scientific circle, forms a timeless and classic biography of the towering figure of twentieth-century science.

*Quality: a Total Management Concept*

This book delineates a management style which is bottom-up rather than top-down, that is, it is employee-centered and allows employees to influence management decisions. Shrouded in the mist the reader will recognize both old established and newly innovative management styles and embedded in these the Japanese concept of Kaizen will be clandestinely apparent. An employee-centered management system is a dynamic function capable of successfully competing in an environment of economic fluctuations and changing market trends. The interaction of employees and the creative forces they generate as they solve and re-synthesize labor and production problems is an aggressive strategy which is nurtured and sustained by its own internal energy. Employees are the most important asset of business and industry and their full and effective utilization is a major responsibility of business management. People perform to the standards of their leaders, and business enterprises are no exception. Managers who lead by example are the most effective leaders; it is character through which leadership is exercised and it is character that sets the example and is imitated in turn. It is the character of management that projects the corporate image and personifies the philosophy of the business.
