All's faire in love and war for two sworn enemies who indulge in a harmless flirtation in a laugh-out-loud rom-com from debut author Jen DeLuca. Emily knew there would be strings attached when she relocated to the small town of Willow Creek, Maryland, for the summer to help her sister recover from an accident, but who could anticipate getting roped into volunteering for the local Renaissance Faire alongside her teenaged niece? Or that the irritating and inscrutable schoolteacher in charge of the volunteers would be so annoying that she finds it impossible to stop thinking about him? The faire is Simon's family legacy and from the start he makes clear he

doesn't have time for Emily's lighthearted approach to life, her oddball Shakespeare conspiracy theories, or her endless suggestions for new acts to shake things up. Yet on the faire grounds he becomes a different person, flirting freely with Emily when she's in her revealing wench's costume. But is this attraction real, or just part of the characters they're portraying? This summer was only ever supposed to be a pit stop on the way to somewhere else for Emily, but soon she can't seem to shake the fantasy of establishing something more with Simon or a permanent home of her own in Willow Creek.

Little Penguin's New Friend Michael O'Mara Books

Raina wakes up one night with a terrible upset stomach. Her mom has one, too, so it's probably just a bug. Raina eventually returns to school, where she's dealing with the usual highs and lows: friends, not-friends, and classmates who think the school year is just one long gross-out session. It soon becomes clear that Raina's tummy trouble isn't going away... and it coincides with her worries about food, school, and changing friendships. What's going on? Raina Telgemeier once again brings us a thoughtful, charming, and funny true story about growing up and gathering the

courage to face and conquer your fears.

Connor's parents want to be rid of him because he's a troublemaker. Risa has no parents and is being unwound to cut orphanage costs. Lev's unwinding has been planned since his birth as part of his family's strict religion. Brought together by chance, and kept together through desperation, these three unlikely companions make a harrowing cross-country journey, knowing all the while

that their lives are hanging in the balance. If they can survive until their eighteenth birthdays, they can't be harmed. But when every piece of them, from their hands to their hearts, are wanted by a world gone mad, eighteen seems far, far away... "Gripping, brilliantly imagined futuristic thriller... The issues raised could not be more provocative - the sanctity of life, the meaning of being human - while the delivery could hardly be more engrossing or better aimed to teens." Publishers Weekly, starred review "A thought-provoking, well-paced read that will appeal widely" School Library Journal, starred review "A breathless tale turning pages for teenage boys, as it challenges not just where life begins and ends, but what it means to be alive." Educ8 magazine "a powerful, shocking, and intelligent novel... It's wonderful, wonderful stuff." thebookbag.co.uk "This is the kind of rare book that makes the hairs on your neck rise up. It is written with a sense of drama that should get it instantly snapped up for film." The Times

This fascinating book is the first volume in a projected cultural history of the United States, from the earliest English settlements to our own time. It is a history of American folkways as they have changed through time, and it argues a thesis about the importance for the United States of having been British in its cultural origins. While most people in the United States today have no British ancestors, they have assimilated regional cultures which were created by British colonists, even while preserving ethnic identities at the same time. In this sense, nearly all Americans are "Albion's Seed," no matter what their ethnicity may be. The concluding section of this remarkable book explores the ways that regional cultures have continued to dominate national politics from 1789 to 1988, and still help to shape attitudes toward education, government, gender, and violence, on which differences between American regions are greater than between European nations.

NATIONAL BESTSELLER • For anyone who wants to learn a foreign language, this is the method that will finally make the words stick. "A brilliant and thoroughly modern guide to learning new languages."—Gary Marcus, cognitive psychologist and author of the New York Times bestseller *Guitar Zero* At thirty years old, Gabriel Wyner speaks six languages fluently. He didn't learn them in school—who does? Rather, he learned them in the past few years, working on his own and practicing on the subway, using simple techniques and free online resources—and here he wants to show others what he's discovered. Starting with pronunciation, you'll learn how to rewire your ears and turn foreign sounds into familiar sounds. You'll retrain your tongue to produce those sounds accurately, using tricks from opera singers and actors. Next, you'll begin to tackle words, and connect sounds and spellings to imagery rather than translations, which will enable you to think in a foreign language. And with the help of sophisticated spaced-repetition techniques, you'll

be able to memorize hundreds of words a month in minutes every day. This is brain hacking at its most exciting, taking what we know about neuroscience and linguistics and using it to create the most efficient and enjoyable way to learn a foreign language in the spare minutes of your day.

Following a family move to Maine, twelve-year-old Reena has no idea what to expect. She hopes it's going to be beaches, blueberries and all the lobster she can eat. She certainly doesn't expect to suddenly be put in charge of a menagerie of animals, belonging to the irascible Mrs Falala, who not only has a fast-wheeling pig, a secretive snake, but the most ornery cow she ever thought to meet. A wonderfully funny, moving story of one family's move to the country, and the challenges they face.
