Interfaith classics that contemplate on..What is God?Where from came the cosmos?Who am I?Why am I here? Upanishads are a record of human mind's earliest contemplatives flights to the unknown. Many of the anonymous seekers proceeded great masters and prophets like Lao-Tzu, Confucius, Socrates, Zoroaster, Buddha, Mahavira, Abraham and Jesus, by at least a few centuries. Upanishads use many captivating, stories and metaphors to bring out the relationship between man, God and world. Timeless truths are condensed in profound aphorisms. After a few glimpses of Upanishads texts, their mere presence on a bookshelf inspires thoughts of wisdom.

The Upanishads: one of three new editions of the books in Eknath Easwaran's Classics of Indian Spirituality series You are what your deep driving desire is. As your desire is, so is your will. As your will is, so is your deed. As your deed is, so is your destiny. - Brihadaranyaka Upanishad (IV.4.5) Over two thousand years ago, the sages of India embarked on an extraordinary experiment. While others were exploring the external world, they turned inward - to explore consciousness itself. In the changing flow of human thought, they asked, is there anything that remains the same? They found that there is indeed a changeless Reality underlying the ebb and flow of life. Their discoveries are an expression of what Aldous Huxley called the Perennial Philosophy, the wellspring of all religious faith that assures us that God-realization is within human reach. The Upanishads are the sages' wisdom, given in intense sessions of spiritual instruction in ashrams, in family gatherings, in a royal court, in the kingdom of Death himself. And Easwaran shows how these teachings are just as relevant to us now as they ever were centuries ago.

Hinduism, Essence and Consequence

Mahidâsa was denied the privilege of sitting in the lap of his father. Itarâ, his mother, who was perhaps from the potters community noticed the sad plight of her son and prayed to her Iṣṭa Devatâ i.e., Goddess Earth, who appeared in a divine form, placed Mahidâsa in celestial seat and imparted unrivalled wisdom. Thus was born, out of the potter Mahidâsa, the proletarian Ṛṣi, the Sage of the labourers, and son of the soil Seer Aitareya, who attained Godhood and authored this scripture of the common man, and sang the song of Hindu culture from a hut of the 'slum'. 'Even the Creator is not free to create a world as he likes.' We with our actions - known and unknown, conscious and unconscious - are making the blueprint of our future. The Lord is but a contractor, who executes our plans, as we give it to Him, asserts Swami Chinmayananda.

Rig Veda is the oldest book of knowledge in the whole world. How many thousands of years ago it was compiled is still a matter of surmise. It is compiled in Sanskrit, a language which is considered as highly refined even by modern standards. The contents of Rig Veda was an enigma for scholars from the time of the original compilation till today. Astonishingly, modern science throws considerable light on the contents of Rig Veda, so much so that we may safely draw the conclusion that the book dealt with scientific issues in a very original way. Perhaps, for the first time I am exploring Rig book wholly from this angle.

Gleanings from Rig Veda - When Science Was Religion Sahibabad, Distt. Ghaziabad : Vikas

Upanishads are verses from the Vedas that have been compiled as independent and complete sets. Those verses in the Vedas that amplify the greatness of man, his soul's journey, and his ultimate purpose are termed as Upanishads. Traditionally the verses in each Veda have been classified as Mantra portion or Brahmana portion. Mantra verses are

action oriented. Brahmana verses are thinking oriented. Within the Brahmana portion, a further sub-classification of verses has been done, namely Brahmana-Aranyaka-Upanishad. Technically Brahmana means planning, discussion and analysis. Aranyaka means research and philosophy. Upanishad means essential thought or teaching or guiding principle. Upanishad verses are those that are found at the end. Thus aptly named Vedanta. Literal meaning ending-portion of the Veda. Spiritual connotation core-design-crux-essence. Ishavasya Upanishad constitutes the final chapter (40th adhyâya) of the Shukla Yajurveda from verse 1959 onwards, and survives in two recensions, named Kanva and Madhyandina. This book contains a lucid essence of these precious verses for the modern reader. It includes a Sanskrit Grammar section with padachheda and anvaya with case-vibhakti of each word given clearly.

The Kena Upanishad is attributed to the Samaveda. It attempts to resolve the soul searching Q, WHAT is it that impels me? Who is directing my senses? Why is it that I do what I do? How come I succeed and at times I fail? This book explains the crux of the verses in easy to grasp contemporary language. It contains original verse in Sanskrit with a Latin transliteration and an English commentary. Uses clear well-spaced Devanagari font. For the Sanskrit enthusiast, each verse has padachheda and anvaya with cases Vibhakti.

The Early Upanishads

The Veda, while revered, has generally not been understood. The Upanishads,

likewise, have been seen as a philosophical rejection of the rituals of the Veda. In fact, both the Veda and the Upanishads are meant to be powerful spiritual guidebooks, charged with a force of realization. This book opens the mystical truths hidden in these ancient texts.

The Upanishads Blurb

The Upanishads has now been expanded and brought out in two volumes, with much new material published for the first time in book form. The single volume The Upanishads has been discontinued, with all its content included in the two new volumes, each available as an independent book. The Kena Upanishad is concerned with the relation of mind-consciousness to Brahman-consciousness , writes Sri Aurobindo in his commentary on this work. The material world and the

physical life exist for us only by virtue of our internal self and our internal life. According as our mental instruments represent to us the external world, according as our vital force in obedience to the mind deals with its impacts and objects, so will be our outward life and existence. Along with Sri Aurobindo's final translation of and commentary on the Kena, this book includes his translations of six other Upanishads as well as several other translations and commentaries, and essays such as 'The Philosophy of the Upanishads'.
