 This new collection features three acclaimed one-act plays from Edward Albee's early years. With the initial productions of *The Death of Bessie Smith*, *The Sandbox*, and *The American Dream*, Albee consolidated his reputation as a brilliant

new talent of the New York theater scene. These three plays tackle major themes such as race relations, American family life, and the essence of theater itself -- each of which still continue to resonate. Representing the bold and exciting periods in the then young career of widely considered America's most popular and imaginative playwrights, this edition is a must-have for theater lovers. *Counting the Ways and Listening* Penguin Group

Edward Albee is going to celebrate his 80th birthday these days. In his

life he observed several decades of American society as well as changes in attitudes and values of the American population. In almost all of his plays Edward Albee looks at the American family and its various manifestations, criticises it, mocks it, and reveals its dishonesty. His plays frequently contain "the figure of the child which ranges from that of the adopted infant, real or imagined baby, young man, dead child, imaginary person, to that of grown-up homosexual son" (Cristian 1). The

figure of the child is often understood as "the alter ego" of Edward Albee (Cristian 6). Shortly afterwards his birth on March 12 1928 Albee was adopted by a wealthy couple. The family was part of the New York high society and tried to bring up their son to be a respectable constituent of this community. Edward Albee sensed early that he was not the couple's biological son. He experienced several conflicts with his parents who disapproved of his lifestyle, interests, sexual

orientation and acquaintances. After some years at various boarding schools and colleges, Albee finally and abruptly left home and broke ties with his adoptive parents in 1949. Albee took employment as runner in an advertising agency, sales clerk in a music shop, bookseller-assistant, waiter in convenience restaurant and telegram deliverer for Western Union. His various occupations not only allowed him to write but through his jobs he was

able to observe quite a number of different people and lifestyles. In an interview about his plays and the assumed analogousness of his plays he said: "You must remember

The Zoo Story, And, The Sandbox Harry N. Abrams 26 September, 1937, was the day the infamous blues singer Bessie Smith died. This tragic event is the setting for Edward Albee's *The Death of Bessie Smith*, which addresses the myth that Bessie was refused admittance to a 'whites-only' hospital before she died. *The Sandbox* is an absurdist play detailing a woman's final moments. Albee's innovative plot sees the actors directly

address the audience and acknowledge their roles as performers. The American Dream is Albee's acerbic take on the most quintessential of US aspirations, examining the crushing falsehood of everything that traditional America, on the cusp of a new decade, took for granted. All three plays first opened on Broadway in the early '60s and continue to be performed all over the world. Albee peerlessly explores the controversies of the human experience in a way that undoubtedly

makes him one of the greatest contemporary American playwrights. The Zoo Story Methuen Publishing

THE STORY: Running into each other at the beach, Cordelia and Abigail do all they can to hide their dislike for one another, probably because their husbands, Daniel and Benjamin, aren't doing so well at hiding the fact that they themselves were once in love before ever deciding to marry Cordelia and Abigail instead. Gertrude and Henden (Daniel and Cordelia's

parents by previous marriages) play witness to their step-childrens' passions which inevitably excite their own, despite their age. Gertrude acts upon her lusty curiosity by investigating what she imagines to be a sexual relationship between Edmee and Fergus, a mother and son whom she meets at the beach that day. Henden, in his own time, approaches the sixteen-year-old Fergus and finds himself answering the boy's discomfoting questions about the nature of Daniel

and Benjamin's past relationship. All together, these chance meetings and forays into frankness offer a kaleidoscopic view of passion which spans all the ages of man and woman and all the varieties of love we know. *1979-2003 : Lolita ; The man who had three arms ; Finding the sun ; Marriage play ; Three tall women ; Fragments (a sit-around) ; The Three tall women ; The goat, or, Who is Sylvia? ; Occupant ; Knock!  A premier playwright, Edward Albee is also a gifted director. Albee inPerformance details Albee's directorial vision and how that vision animates his plays. Having had extraordinary access to Albee as director, Rakesh H. Solomon reveals how Albee has shaped his plays in performance, the attention he pays to each aspect of theater, and how his conception of the key plays he has directed has evolved over

a five-decade career. Solomon pays careful attention to the major works, from *The American Dream* and *Zoo*

Story to Albee's best-known work, *Who's Afraid of Virginia Woolf?*, as well as to later plays such as *Marriage Play* and *Three Tall Women*. The

book also includes interviews with Albee and his collaborators on all aspects of staging, from rehearsal to performance.
