"Forty-plus years earlier, Walt Wallet found baby Skeeze in a basket on his doorstep and in the 1964-1966 strips reproduced in this volume. Skeeze is now middle-aged and has a family of his own. For the first time since they appeared in newspapers fifty years ago, readers can enjoy these classic strips featuring Walt and his wife Phyllis, Skeeze and his wife Nina, Corky, Clovia, Slim, Avery, Mr. Pert, Joel, Rufus, and a whole cast of familiar characters. Reproduced from syndicate proofbooks and featuring an enlightening introduction by Rick Norwood."--

Outsiders Within Collins Harvill Press

Confronting trauma behind the transnational adoption system—now back in print Many adoptees are required to become people that they were never meant to be. While transracial

adoption tends to be considered benevolent, it often exacts a heavy emotional, cultural, and economic toll on those who directly experience it. *Outsiders Within* is a landmark publication that carefully explores this most intimate aspect of globalization through essays, fiction, poetry, and art. Moving beyond personal narrative, transracially adopted writers from around the world tackle difficult questions about how to survive the racist and ethnocentric worlds they inhabit, what connects the countries relinquishing their children to the countries importing them, why poor families of color have their children removed rather than supported—about who, ultimately, they are. In their inquiry, the contributors unseat conventional understandings of adoption politics, reframing the controversy as a debate that encompasses human rights, peace, and reproductive justice. Operculate Discomycetes (Pezizales, Ascomycota) of Israel Univ of Massachusetts Press

Moving away from the explicitly political content of his previous novels, Victor Hugo turns to social commentary in *The Man Who Laughs*, an 1869 work that was made into a popular film in the 1920s. The plot deals with a band of miscreants who deliberately deform children to make them more effective beggars, as well as the long-lasting emotional and social damage that this abhorrent

practice inflicts upon its victims.

Freeride in the Dolomites Routledge

Mountain emergency medicine has seen exponential development due to the ever increasing number of people who hike or trek as well as practice extreme sports. Emergency physicians and nurses need to be equipped with the necessary training to be able to manage “on the field” accidents and sicknesses as well as their own physical security. Theoretical knowledge is generally of high level but practical expertise is dangerously lacking in many operators. Furthermore, treatment modalities on the field have not been completely codified and are not supported by internationally-accepted guidelines. This book is the first to offer a complete and thorough approach to this field of Emergency Medicine based on the latest research findings.

Jaques-Louis Menetra's journal reads like a historian's dream come true. It conveys his understanding of what it meant to grow up in Paris, where he was born in 1738; to tramp around provincial shops on a journeyman's tour de France; to settle down as a Parisian master with a shop and family of his own; and to live through the great events of the Revolution as a militant in his local Section.

Gargantua and Pantagruel; University of Toronto Press
A memoir of the author's life while he was researching and writing a religious history called Les Martyrs, ou le Triomphe de la Religion Chretienne. The introduction includes the history of Athens and Sparta and an inquiry into religious traditions related to Jerusalem--specifically, the authenticity of claims made by religious tourists, such as visiting the actual tomb of Christ. The text of the diary is full of literary references and adventure. Unlike other travel diaries, the narrative flow is more like a novel and the entries are not just lists of weather reports, food, pretty sights, and some funny anecdotes. Since the author had a research purpose during his time there, Travels in Greece has a protagonist with a purpose.
