**Feminism and World Religions** Rowman & Littlefield

A History of the World's Religions bridges the interval between the founding of religions and their present state, and gives students an accurate look at the religions of the world by including descriptive and interpretive details from the original source materials. Refined by over forty years of dialogue and correspondence with religious experts and practitioners around the world, A History of the World's Religions is widely regarded as the hallmark of scholarship, fairness, and accuracy in its field. It is also the most thorough yet manageable history of world religion available in a single volume, treating many subjects largely neglected in other texts.

*One Christ--Many Religions* Fortress Press

In our pluralistic world, it's not sufficient to simply learn about other religions: we must learn from them. World Religions in Dialogue: A Comparative Theological Approach, Enhanced Edition, provides an opportunity to do just that. Exploring the five major world religions--Christianity, Judaism, Islam, Hinduism, and Buddhism--this text offers both insider and outsider perspectives on each religious tradition, creating a dialogical approach that combines scholarship with lived experience. Equipped with glossaries, research questions, and suggestions for experiential learning, World Religions

in Dialogue invites students to study world religions--and investigate their own inherited traditions--in a way that reflects our pluralistic world. Pim Valkenberg is an ordinary professor of religion and culture in the School of Theology and Religious Studies at The Catholic University of America in Washington, D.C.

**The Illustrated World's Religions** Bloomsbury Publishing

Here is a wise, radical, and illuminating book on the obstacles that a rigid interpretation of orthodox christological doctrines presents to dialogue with persons of other faiths. One Christ--Many Religions examines religious pluralism today and, in the light of its implications for the global community, suggests the contours of a revised christology more credible to Christians and their neighbors of other faiths. Samartha argues that the problem with the christological dogmas of the first Ecumenical Councils is not their truth so much as their interpretation, and the un-Christian zealotry they seem to engender in Christians. Sensitive to charges of sentiments of racial and cultural superiority that stem from Christians believing themselves uniquely authorized agents of God, Samartha challenges us to admit the truth of these accusations, and to revise our understanding of Jesus. Without such

christological revisions, Samartha fears, Christianity may cease to be Christian, may become enfeebled in the pursuit of justice for the oppressed, alienated from the deeper challenge of Jesus, sealed off from the truths of other religions, and, ultimately, may be barred from experiencing the rich and mysterious encounter of God.

The world is a very religious place. Wherever you look, people are worshipping, praying, believing, following, even dying for their faith. But are all faiths the same? Do they all call on the same God using different names? Are their beliefs and practices simply cultural expressions of the same spiritual longings? In this timely book, John Dickson presents each of the world's major religions in its best light. He carefully outlines the history, belief systems and spiritual practices of Hinduism, Buddhism, Judaism, Christianity and Islam so that the interested 'spectator' can explore their similarities and differences. For sceptics, believers and students of religion the book provides a fair and friendly introduction to this ultimate subject. *Christianity and World Religions Leader Guide Revised Edition* Tyndale House Publishers, Inc.

Adam Hamilton, named by PBS's Religion and Ethics Newsweekly as one of the top "Ten People to Watch," has created an inviting new series of video-and-book studies on love and marriage, life issues, world religions, and Christian denominations. Hamilton calls these small-group studies "fishing expeditions," because they include tools for congregation wide and communitywide programs to draw in new members. Components include DVD, participant's book, leader's guide, and pastor's guide with CD-ROM. 6-8 sessions / 60-90 minutes *Christianity and World Religions: Wrestling With Questions People Ask* is a video-based small-group study and outreach program that explores four major world religions- Hinduism, Buddhism, Islam, and Judaism - and compares the beliefs of each with those of Christianity. This six-week study deals openly and honestly with questions people ask about other religions, including why we should believe the claims of Christianity over those of other faiths. As part of the study, author and presenter Adam Hamilton interviews a religious leader from each tradition. He treats the world religions with great respect, recognizing the unique contributions of each. In examining these major world religions and the beliefs of their followers, the Reverend Hamilton urges us as Christians to build bridges with others so that we might grow in our faith, seek peace in our world, love our neighbor, and find positive ways to share the gospel. For group or individual study, the book can be used by class participants during the study group meeting or at home for additional reflection. Includes detailed content for the six sessions. The major religions of the world are a mystery to many high school teens. Now you can help them unlock the doors of these traditions with our new text, *World Religions: A Voyage of Discovery*. The book is an introductory survey that helps eleventh and twelfth graders understand the people, dimensions, and religious principles of the world's major religions. The textbook includes a chapter on each of eleven major world religions, including Christianity, Islam, Hinduism, Buddhism, Judaism, and others. The text offers the Catholic perspective on interreligious dialogue, an overview of basic questions that religions address, and Ninian Smart's seven dimensions of religion. A glossary and word pronunciations in each chapter help students learn unfamiliar terms. In addition, the second edition of this text incorporates the following new features: a new chapter on modern trends in religion; new, more detailed maps; a new section on the Aztec religion of Mesoamerica; a sidebar in each chapter offering examples of the seven dimensions of religion; and review questions at the end of each chapter.

*The Evolution of Major Faiths* World Religions looks at the beliefs and practices of many different religions, from the ancient Egyptians to Zoroastrianism -- the oldest "living" religion -- and the great faiths practiced today. Each of the major faiths -- Christianity, Judaism, Hinduism, Buddhism, Jainism, Sikhism, and Islam -- is examined in detail through its sacred texts, epic imagery, key beliefs, and religious artifacts. The distinctive identities of different faiths are explored in *World Religions* by studying the main principles and thinking of each religion. The book's superb reproduction allows the symbolism and meaning in religious imagery and iconography to be revealed in great detail. Accessible and far-reaching, *World Religions* will engage the whole family as much as the serious student. Book jacket.

Further chapters explore liberation theologies, active nonviolence, and just war theory. The second edition features a broader framework than the first edition and includes new material on non-religious ethical norms, Islamophobia, colonial evangelization, religion in China, and an updated examination of the Israel-Palestine conflict. *Understanding World Religions* remains a powerful introduction to major worldviews with an emphasis on practical connections to peace and justice.

Grand in its sweep, this survey of the sacred writings of the major religions of the world offers a thoughtful introduction to the ideas and beliefs upon which great faiths are built. Under the expert guidance of John Bowker, a religious scholar and author of international stature, readers explore the key

texts of Jewish, Christian, Muslim, Hindu, Jain, Sikh, Buddhist, Parsi, Confucian, Daoist, and Shinto traditions. The author discusses some 400 books, among them such well-known sacred texts as the Bible and the Quran, but also spiritual writings by theologians, philosophers, poets, and others. Bowker provides clear and illuminating commentary on each text, describing the content and core tenets of the work and quoting pertinent passages. He also sets the writings in religious and historical contexts, showing how they have influenced—and in many cases continue to influence—artistic, musical, literary, and political traditions. The Message and the Book is essential reading for anyone who wishes to understand the meaning and the deep significance of primary religious texts of civilizations around the globe.

Please note: This is a companion version & not the original book. Sample Book Insights: #1 The purpose of this book is to listen to the many different religions around the world and find common themes. We cannot know for sure whether or not the voices we hear blend in strange, ethereal harmony, but we can listen carefully and with full attention to each voice. #2 The book does not attempt to give a rounded view of the religions considered. Each host differences that are too numerous to be delineated in a single chapter. The first question facing an author is how many to include, and which ones. #3 The full story of religion is not rose-colored. It includes human sacrifice and scapegoating, fanaticism and persecution, the Christian Crusades and the holy wars of Islam. It includes witch hunts in Massachusetts, monkey trials in Tennessee, and snake worship in the Ozarks. #4 The best religions in the world are those that enamor their followers with the Truth. However, institutions, which are made up of people with their inbuilt frailties, are built of vices as well as virtues.
