Computer Science - CACIC 2021

Springer Nature

This book constitutes revised selected papers from the 27th Argentine Congress on Computer Science, CACIC 2021, held in Salta, Argentina in October

2021. Due to the COVID-19 pandemic the conference was held in a virtual mode. The 18 full papers and 3 short papers presented in this volume were carefully reviewed and selected from a total of 130 submissions. They were organized in topical sections named: intelligent agents and systems; distributed and parallel processing; computer technology applied to

education; graphic computation, images and visualization; software engineering; databases and data mining; hardware architectures, networks, and operating systems; innovation in software systems; signal processing and real-time systems; computer security; and digital governance and smart cities.

My Brilliant Career is a 1901 novel written by Miles Franklin. It is the first of

many novels by Stella Maria Sarah Miles Franklin (1879–1954), one of the major Australian writers of her time. It was written while she was still a teenager, as a romance to amuse her friends. Franklin submitted the manuscript to Henry Lawson who contributed a preface and took it to his own publishers in Edinburgh. The popularity of the novel in Australia and the perceived closeness of many of the characters to her own family and circumstances as small farmers in New South Wales near Goulburn caused Franklin a great deal of distress and led her to withdrawing the novel from publication until after her death. Shortly after the publication of My Brilliant Career, Franklin wrote a sequel, My Career Goes Bung, which would not be published until 1946.
