Nothing But the Truth Lindsay Buroker

The truth, like love, can be elusive, unless you're willing to fight for it. Sparks fly when two top notch attorneys battle each other in the high risk arena of the courtroom, but when a strange turn of events thrusts one of them from the role of advocate to witness, prosecutor Ryan Foster and defense attorney Brett Logan join forces in their search for the truth. Working together they quickly learn their attraction to each other is as strong as their commitment to justice, but courthouse romance is not without complications. Throw in a murder case with bizarre twists and turns, and even the strongest attraction will be put to the test.

"The balm for the soul that I needed. We women don't need to smile more or look pretty or conform to expectations...we just need to read this, buy a copy for our best friends, and toast to the truth."—Jodi Picoult, New York Times bestselling author of *Wish You Were Here* In this sparkling, page-turning debut, Lucy Green learns that when you make a wish, you don't always get what you want...but you might just get exactly what you need. It's the eve of Hollywood publicist Lucy Green's thirtieth birthday, a day she hopes will bring the promotion she deserves and a proposal from her boyfriend. But he stands her up for a date, not for the first time, leaving Lucy alone at the bar—or at least, alone with the handsome bartender on the other side of the counter—so she makes a rueful wish over her cocktail for a perfect birthday. But when Lucy's wish is granted in the most unexpected way, things go terribly awry, as things often do when wishes come true.... When Lucy wakes up on her big day, she can't seem to force herself to go through her rigorous fitness and beauty routines—things she usually tells herself she likes. She has no desire to eat only a spoonful of yogurt for breakfast and she simply can't bear to put on the uncomfortable shapewear needed for the power outfit she had planned for work. Then Lucy arrives at the office, and she realizes that not only can she no longer lie to herself, she can't lie to anyone else, either. Not her clients, not her boyfriend, not her creep of a boss. Now that she can't hide how she feels, Lucy must confront all the injustices—small and large—she's faced on a daily basis at work, in her relationship, and in every other aspect of her life...and the truth is going to come out in a big way. This sharp, bighearted, and magical novel tackles all the lies women are encouraged to tell just to get by in today's world—in life, in love, and in the workplace—and the liberation that can come from telling nothing but the truth.

INSTANT NATIONAL BESTSELLER A critically acclaimed, intimate and no-holds-barred memoir by Canada's top defence lawyer, Nothing But the Truth weaves Marie Henein's personal story with her strongly held views on society's most pressing issues. Marie Henein, arguably the most prominent lawyer in the country, has written a memoir that is at once raw, beautiful, and altogether unforgettable. Her story, as an immigrant from a tight-knit Egyptian-Lebanese family, demonstrates the value of strong role models—from her mother and grandmother, to her brilliant uncle Sami who died of AIDS. She learned the value of hard work, being true to herself and others, and unapologetically owning it all. Marie Henein shares here her unvarnished view on the ethical and practical implications of being a criminal lawyer, and how the job is misunderstood and even demonized. Ironically, her most successful cases made her a "lightning rod" in some circles, confirming her belief that much of the public's understanding of democracy and the justice system is based on popular culture and social media, and decidedly not the rule of law. As she turns fifty and struggles with the corrosive effect becoming invisible has on women, Marie doubles down on being even more highly visible and opinionated as she deconstructs, among other things, the otherness of the immigrant experience (Where are you really from?), the pros and cons of being a household name in this country, opening her own boutique law firm, and the commoditization of women's previously unpaid labour popularized by the likes of Martha Stewart. Nothing But the Truth is refreshingly unconstrained and surprising—an account by a

woman at the top of her game in a male-dominated world.

My name is Amber Reynolds. There are three things you should know about me: 1. I'm in a coma. 2. My husband doesn't love me anymore. 3. Sometimes I lie. Amber wakes up in a hospital. She can't move. She can't speak. She can't open her eyes. She can hear everyone around her, but they have no idea. Amber doesn't remember what happened, but she has a suspicion her husband had something to do with it. Alternating between her paralyzed present, the week before her accident, and a series of childhood diaries from twenty years ago, this brilliant psychological thriller asks: Is something really a lie if you believe it's the truth?

Imagine a world where babies are born and their names are instantly turned into corporations. Where birth certificates are worth millions. Where colonists took the law of the seas and imposed it onto the land. Corporations were classified as 'Persons' and had the ability to control, imprison and extract money from people. Where for certain groups of people, it was illegal to learn how to read and write or even own property. This isn't an imaginary world...this is the 20th century in the UNITED STATES OF AMERICA...allow me to explain.

From the co-author of *Black Mass* comes a gripping YA novel based on the true story of a teenage girl's murder — and a young father's false imprisonment for the crime. On a hot summer night in the late 1980s, in the Boston neighborhood of Roxbury, a fourteen-year-old African-American girl was sitting on a mailbox talking with her friends when she became the innocent victim of gang-related gunfire. Amid public outcry, an immediate manhunt was on to catch the murderer, and a young African-American man

was quickly apprehended, charged, and — wrongly — convicted of the crime. Dick Lehr, a former reporter for the Boston Globe's famous Spotlight Team who worked on this story three decades ago, brings the case to light once more with *Trell*, a page-turning novel about the daughter of the imprisoned man, who persuades a reporter and a lawyer to help her prove her father's innocence. What pieces of evidence might have been overlooked? Can they manage to get to the truth before a dangerous character from the neighborhood gets to them?

Frank follows the motto, "Honesty is the best policy." He tells the truth, the whole truth, and nothing but the truth. Frank never lies to his schoolmates, he always tells the truth to adults, and he's always honest with police officers. The balancing act of finding tact, that fine line between telling the truth and telling too much truth, is the main theme of this story, and it's very funny—although not necessarily to his friend Dotti whose freckles remind Frank of the Big Dipper, or to the teacher who hears that her breath smells like onions, or to the principal who is told that his toupee looks like a weasel. No one is quite as impressed with Frank's honesty as he thinks they should be. He is sweet and straightforward, and, well, very frank, but with everyone annoyed at him, Frank is now honestly unhappy. He decides to visit his confidante and pal, Grandpa Ernest, who has a history of frankness himself. With a few lessons from Grandpa, Frank begins to understand that the truth is important, but so is not being hurtful. With amusing characters and expressive artwork, this story tells the powerful message of finding the good in everything—a lesson that sends compassion and understanding to take the place of rudeness in the complex concept of truth.

Eye of Truth Penguin

Why do you believe what you believe? You've been lied to. Probably a lot. We're always stunned when we realize we've been deceived. We can't believe we were fooled: What was I thinking? How could I have believed that? We always wonder why we believed the lie. But have you ever wondered why you believe the truth? People tell you the truth all the time, and you believe them; and if, at some later point, you're confronted with evidence that the story you believed was indeed true, you never wonder why you believed it in the first place. In this incisive and insightful taxonomy of lies and liars, New York Times bestselling author Aja Raden makes the surprising claim that maybe you should. Buttressed by history, psychology, and science, *The Truth About Lies* is both an eye-opening primer on con-artistry—from pyramid

schemes to shell games, forgery to hoaxes—and also a telescopic view of society through the mechanics of belief: why we lie, why we believe, and how, if at all, the acts differ. Through wild tales of cons and marks, Raden examines not only how lies actually work, but also why they work, from the evolutionary function of deception to what it reveals about our own. In her previous book, *Stoned*, Raden asked, "What makes a thing valuable?" In *The Truth About Lies*, she asks "What makes a thing real?" With cutting wit and a deft touch, Raden untangles the relationship of truth to lie, belief to faith, and deception to propaganda. *The Truth About Lies* will change everything you thought you knew about what you know, and whether you ever really know it.
