Singular and star-studded writings on America's neon-lit playground At once a Technicolor wonderland and the embodiment of American mythology, Las Vegas exists at the Ground Zero of a reverence for risk-taking and the transformative power of a winning hand. Jake Johnson edits a collection of short essays and flash ideas that probes how music-making and soundscapes shape the City of Second Chances. Treating topics ranging from Cher to Cirque de Soleil, the contributors delve into how music and musicians factored in the early development of Vegas's image; the role of local communities of musicians and

Strip mainstays in sustaining tensions between belief and disbelief; the ways aging showroom stars provide a sense of timelessness that inoculates visitors against the outside world; the link connecting fantasies of sexual prowess and democracy with the musical values of Liberace and others; considerations of how musicians and establishments gambled with identity and opened the door for audience members to explore Sin City-only versions of themselves; and the echoes and energy generated by the idea of Las Vegas as it travels across the country.

Vacations make the perfect scrapbook subject, and this colorful, inspiring guide shows how to capture those memories in a beautiful album. Every page suggests fabulously original ideas for layouts, and for incorporating beloved photos of interesting

locales and family fun. These hints and tips keep things organized and great-looking: display keepsakes securely in a small florist's, or semi-transparent, envelope. Frame paper edges prettily with patterned vellum. Create a "bulletin board" look with crisscrossed ribbon. Highlight a photo by using a mat smaller than the picture itself to create an image-within-an-image. The result: a scrapbook as interesting as the vacation itself.

Before Lewis and Clark relates the extraordinary saga of the Chouteaus, the dynastic family that guarded the gates to the West for three generations. From their St. Louis base, the Chouteaus, patrician and French in their origins, made their fortunes along the two-thousand-mile length of the Missouri River. Led by the brothers Auguste and Pierre, the family not only engaged in land speculation, finance, and the fur trade but also acted as suppliers and advisers to expeditions and enterprises between the Mississippi River and the Rocky Mountains—including the famous expedition of Meriwether Lewis and William Clark from 1804 to 1806. This is the story of the Old World meeting the New, of the eastern United States discovering the West, and of a wealthy, powerful, charming, and manipulative family that dominated business and politics in the Louisiana Purchase territory before and after the Lewis and Clark expedition.
