Between these covers,
teller and tales finally
meet in a warm and
joyful new collection
that will bring delight

to the hearts of
readers the world over:
James Herriot's Cat
Stories. Here are
Buster, the kitten who
arrived on Christmas;
Alfred, the cat at the
sweet shop; little
Emily, who lived with
the gentleman tramp;
and Olly and Ginny, the

kittens who charmed readers when they first appeared at the Herriots' house in the worldwide bestseller *Every Living Thing*. And along with these come others, each story as memorable and heartwarming as the last, each told with that magical blend of gentle wit and human compassion that marks every word from James Herriot's pen.

International Trucks

Springer Science & Business Media

A fascinating book full of insights into how the brain controls your actions, reactions, and emotions in ways you've never imagined. Discover why you can't tickle yourself, 40,000 year old brain surgery, why kids are "brainier" than their parents, the person who coped perfectly well with just

a third of a brain, and the incredible story of Einstein's brain and how it was stolen, cubed, and hidden in jars in a basement for decades.

The Works of Benjamin Franklin Hassell Street Press

As today's spark-ignition and diesel engines have to fulfil constantly increasing demands with regard to CO2 reduction, emissions, weight and lifetime, detailed knowledge of the components of an internal combustion engine is absolutely essential. Automotive engineers can no longer survive without such expertise, regardless of whether they are involved in design, development, testing or maintenance. This text book provides answers

to questions relating to the design, production and machining of cylinder components in a comprehensive technical analysis.

Bollywood Sounds focuses on the songs of Indian films in their historical, social, commercial, and cinematic contexts. Author Jayson Beaster-Jones takes readers through the highly collaborative compositional process, highlighting the contributions of film directors, music

directors (composers), lyricists, musicians, and singers in song production. Through close musical and multimedia analysis of more than twenty landmark compositions, Bollywood Sounds illustrates how the producers of Indian film songs have long mediated a variety of musical styles, instruments, and performance practices to create a uniquely cosmopolitan music genre. As an exploration of the music of seventy years

of Hindi films, Bollywood Sounds provides long-term historical insights into film songs and their musical and cinematic conventions in ways that will appeal both to scholars and to newcomers to Indian cinema.
