 Punk seringkali dipandang negatif dan dilemparkan dengan tuduhan-tuduhan seperti sampah masyarakat, tidak berguna, tidak berakhlak dan sebagainya. Realitinya, wujud komuniti-komuniti punk lain yang melakukan bermacam-macam aktiviti dengan maksud untuk

menyumbang sesuatu kepada masyarakat. Buku ini cuba untuk menampilkan sesuatu yang berbeza, iaitu tindakan politik dan aksi langsung yang telah dilakukan oleh komuniti punk seperti Rumah Api di Kuala Lumpur, Malaysia dan Komunitas Taring Babi di Jakarta, Indonesia. Buku ini juga menonjolkan nilai-nilai penentangan, pemberontakan dan kemandirian punk yang boleh dilihat melalui pelbagai prinsip seperti kerja bertukang sendiri (do-it-yourself). Oleh yang demikian, buku ini berkeyakinan bahawa punk harus dilihat dalam lensa sub-budaya, ketidakakuran, penentangan dan transnasional bagi membolehkan mana-mana individu atau komuniti punk dapat difahami dengan lebih dekat sebagaimana Rumah Api dan Komunitas Taring Babi. "Kajian tentang perlawanan politik di luar gelanggang rasmi seperti

pemilihan umum dan parlimen masih sedikit. Justeru, buku ini menawarkan sebuah penerokaan budaya penentangan yang sungguh menarik. Ia memberikan penjelasan mengenai kedudukan khas seni dalam budaya penentangan tersebut dan keterbatasan dalam budaya tersebut bila berhadapan dengan konsumerisme. Proses ini mencerahkan dinamika budaya, sosial, dan politik yang tidak jelas kelihatan tetapi tetap membawa kepada perubahan masyarakat." Dr Sumit K. Mandal Profesor Madya (Kajian Budaya dan Sejarah Sosial) University of Nottingham, Malaysia

It's all fun and games until somebody ends up in a cone. Physicians used to make house calls. Today, a few veterinarians still do. Duncan MacVean, DVM, is one such vet. His patients range from cats and dogs to pigs and lizards—each of them a unique personality. Every animal and every home is different, but every owner is the same in their affection for their companions. Without warning, MacVean finds himself in odd situations: stepping into a basement full of free-flying bats or struck speechless by a pig who loves opera so much that she falls into a trance. The hilarious and the

heartbreaking come together in this collection of true tales, all gathered from his lifelong career. MacVean finds himself riding backwards atop a potbelly pig that bucks and kicks its way down the hall, knocking over a china cabinet in the process. One woman with terminal cancer earnestly wants to know where pets go when they pass away—will her beloved cat and dog join her in the afterlife? Navigating the finer elements of human and animal interaction isn't easy. Here, MacVean provides a glimpse into his experience with such relationships, always looking for the humor and light of every situation. With never a dull moment, his dedication to the animals of this earth and compassion for their human caretakers drives MacVean onward, from house to house, from patient to patient. This heartwarming collection of stories brings readers along for the ride, getting to know the curious creatures he treats and their perhaps sometimes even more curious humans. *My Patients Like Treats* is the perfect book for animal lovers or those who simply appreciate a good story.

Though there has been much discussion on the academic aspects of Japanese education abroad (e.g., high scores on international tests, lesson study), there has been little information on the non-academic aspects of Japanese schooling. This non-academic aspect is called Tokkatsu (tokubetsu katsudo). Unlike math and reading, Tokkatsu is not confined to a certain period, but extends throughout the school day and even after-school activities — such as school excursions. It includes classroom activities such as classroom discussions, morning and afternoon meetings that take place daily, cleaning and serving lunch, school events such as sports day, school excursions, student councils, and club activities. Such activities occur every single day, throughout one's school years, from elementary school (actually, even kindergarten) to high school. They are, however, bound together by the common goals of the Tokkatsu framework. This book

is the foremost attempt to address a gap in English literature on Tokkatsu.

This book provides a detailed description of research and application outcomes from the Assessment and Teaching of 21st Century Skills project, which explored a framework for understanding the nature of these skills. The major element of this new volume is the presentation of research information from the global assessment of two 21st century skills that are amenable to teaching and learning: collaborative problem solving, and learning in digital networks. The outcomes presented include evidence to support the validity of assessment of 21st century skills and descriptions of consequent pedagogical approaches which can be used both to teach the skills and to use them to enhance key learning goals in secondary education systems. The sections of the volume are connected through a focus on the degree to which innovative assessment tasks measure the constructs of interest. This focus is informed by conceptual and methodological issues

associated with affordances of 21st century computer-based assessment. How understanding of the nature of the skills, as derived from these assessments, can guide approaches to the integration of 21st century skills in the classroom, is informed by initiatives adopted by participating countries. The guiding questions in this volume are: "Do the assessment tasks measure the constructs?" and "What are the implications for assessment and teaching in the classroom?" It is the third volume of papers from this project published by Springer.

Many commentaries on the Apocalypse were produced in the early Middle Ages. This book provides translations of two Apocalypse commentaries from the seventh and eighth centuries. On the *Mysteries of the Apocalypse of John* is part of a large one-volume "Reference Bible" composed about 750. Written probably by an Irish teacher residing in northern France, it answers difficulties arising from the biblical text. The *Handbook on the Apocalypse of the Apostle John*, attributed erroneously to Jerome and written before 767, contains brief moral and allegorical interpretations of particular words and phrases of the Apocalypse. The introduction highlights the unique features of each commentary and the interrelationship of the three texts.
