Examining the

historical, economic and political context for the current prohibition of particular drugs, this study investigates the problem of drug control and provides a systematic analysis of

the development of the international system of regulation. It identifies the political rationalities that provided the basis of that system and positions these moral justifications for exercising power in relation to the practical programmes that put them into practice. The work not only catalogues the techniques and strategies employed in the process of governing illicit drugs, it also notes the failures, unintended consequences and other difficulties associated with getting such programmes to work. It will be of key interest to students and scholars of crime and criminology, law and society, medico-legal studies and health studies.

A gripping family drama that plays out against a turbulent and controversial political era, this book tells the tale of Susan Kinnane. She is the precocious daughter of conservative parents who spurns the attention of fellow university student Mike Riley in favor of a passionate romance with activist Terry Stoddard. When the South African Rugby

team goes on the road, Terry, Susan, and Mike join the anti-apartheid demonstrations outside the Springbok's hotel near the iconic Tower Mill. Late in the night, the riot police charge, and the terrified students are hunted into the darkened park below. What happens next changes each of their lives forever. Eight months later, Susan gives birth to a son, Tom, whose destiny is shaped by a man who is not his father, and by the events of that shocking night. As a lawyer working in London decades later, Tom must return to make peace with the past. This novel combines the youthful passion and enthusiastic activism of the 1970s with the racism of the apartheid era in a

vibrant and tumultuous story that will enthrall readers to the final page.

“The Draft UNCITRAL Digest and Beyond” is one of the most useful single volumes available on the CISG. It includes the full text

of the draft “UNCITRAL Digest” which catalogues the cases and arbitral awards to date that have interpreted and applied the CISG on an article by article basis. “The Digest and Beyond” includes also commentary by eminent CISG scholars that addresses issues not yet considered in the cases. With more than 1000 decisions applying the CISG in courts and arbitral tribunals around the world, the UNCITRAL Secretariat charged five CISG experts from a variety of regions with the task of creating a digest of CISG case law. “The Digest and Beyond” includes the draft “UNCITRAL Digest”, even before it is released officially by UNCITRAL. It also goes

where the authors of the Digest were not allowed to go, given the narrow mandate within which the drafters were asked to work. Its chapters build upon the work of the “UNCITRAL Digest”. The Digest describes the reasoning and results of existing CISG cases; in “The Digest and Beyond”, the Digest authors analyze those cases, and discuss issues that have not yet arisen in the case law. Thus, in many ways, “The Digest and Beyond” provides scholarship that can direct future cases in areas that have not yet been considered by courts and arbitrators as well as in areas in which contradictory court decisions exist.

The Australian nation is a work in progress. So conclude the authors whose views are represented in this most recent offering in the ANZSOG monograph series, AUSTRALIA UNDER CONSTRUCTION: NATION-BUILDING PAST, PRESENT AND FUTURE. From its beginnings as a settler society through to present day concerns about 'broadbanding the nation', the nation-building narrative has resonated with Australians. The very idea of nation-building has both excited the popular imagination about what we might achieve as a society and a nation, and has occasioned despair about missed opportunities. The eleven authors contributing to this

monograph reflect on these, and other themes from a variety of perspectives. They challenge our understanding of the term 'nation-building', reflect on its contemporary relevance as a framework for public policy and even re-appraise the contribution of past 'iconic' nation-building endeavours. To this subject the authors bring intelligence, wit and a healthy disdain for sacred cows. A stimulating read for anyone interested in the history, challenges and prospects of nation-building in Australia.

As people, business,
and information cross
borders, so too do legal

disputes. Globalisation means that courts need to apply principles of private international law with increasing frequency. Thus, as the Law Society of New South Wales recognised in its 2017 report *The Future of Law and Innovation in the Profession*, knowledge of private international law is increasingly important to legal practice. In particular, it is essential to the modern practice of commercial law. This book considers key issues at the intersection of commercial law and private international law. The authors include judges, academics and practising lawyers, from Australia, New Zealand, Singapore and the United

Kingdom. They bring a common law perspective to contemporary problems concerning the key issues in private international law: jurisdiction, choice of law, and recognition and enforcement of foreign judgments. The book also addresses issues of evidence and procedure in cross-border litigation, and the impact of recent developments at the Hague Conference on Private International Law, including the Convention on Choice of Court Agreements on common law principles of private international law.

The Labour Laws of Queensland

Written for international trade lawyers, practitioners and students from common and civil law

countries, this casebook is an excellent starting point for learning about the CISG, providing an article-by-article analysis of the Convention. The commentary on each article is accompanied by extracts from cases and associated comparative materials, as well as references to important trade usages such as the INCOTERMS® 2010.

The book features a selection of the most significant cases, each of which has been abridged to enable the reader to focus on its essential features and the relevant questions arising from it. The case extracts are accompanied by a comprehensive overview of parallel provisions in other international

instruments, uniform projects and domestic laws. The analyses, cases, texts and questions are intended to aid readers in their comparative law and international sales law studies. They are designed to draw attention to the particular issues surrounding specific CISG provisions and to provoke careful consideration of possible solutions. The book is a reference work as well as an introduction to the individual problem areas. In particular, it acts as a preparatory work for the Willem C Vis International Commercial Arbitration

Moot. The inclusion of sample questions and answers also makes it particularly helpful for self-study purposes. *Mining Journal, Railway & Commercial Gazette The Draft UNCITRAL Digest and Beyond National Union Gleanings*
