This book documents experimentation with various policy and governance approaches that produce structural differences in the composition and organisation of Asia’s higher education systems. In view of the wide variation in the public and private provision of higher education, it showcases how issues of access, equity and modes of participation are addressed, how institutional and programme quality are managed and how academic labour is treated and developed. The book both maps these differences and analyses the country-level dynamics, policy approaches and the problems faced by a variety of states in Asia in the race to develop competitive higher education systems. Focusing on the intersection of governance and higher education policy, it addresses the challenges facing higher education in Asia and the national responses of governments in terms of the organisation of the sector.

Pandemi menyisakan problematika sosial yang mendalam, banyak fenomena baru yang terjadi karenanya. Buku ini mengupas banyak hal menarik selama masa pandemi di Indonesia. Mulai dari pembatasan mobilitas masyarakat hingga adanya panic buying dan panic consumption. Peran teknologi semenjak Covid-19 merebak menjadi sangat vital, salah satunya pada dunia Pendidikan. Begitu pula pembahasan mengenai pangan yang seperti tiada habisnya. Semua tersaji dalam goresan tangan ini. Ditulis oleh para generasi penerus bangsa, yang notabene merupakan penerima beasiswa Lembaga Pengelola Dana Pendidikan (LPDP), menjadikan buku ini sangat layak untuk dijadikan referensi bacaan terkini. Penggunaan bahasa yang santai namun berbobot menjadi nilai tersendiri bagi buku ini sehingga menghilangkan kesan eksklusif dan layak dibaca oleh siapa saja.

Regionalization and Harmonization in TVET Muhammadiyah University Press

This book offers a critical analysis on Indonesian education by drawing from various critical perspectives and theoretical frameworks to explore persistent challenges and social inequality problems in the education sector. Critical perspectives are important to reveal how education is not a neutral, mechanistic process of cultivating the knowledge and skills of future generation. Instead, it is a

battleground in which competing visions, ideologies, discourses, religious values, and political interests struggle for dominance in a given society. In each of the sections, contributors draw upon specific case studies and employ critical theories to analyze power relations or to identify and destabilize underlying structures, dominant discourses, hegemonic knowledge, policies, or practices. Some authors also highlight data evidencing inequities, inequalities, or injustices in Indonesian education system. As a handbook, the emphasis on critical perspectives is useful to identify and evaluate the 'blind spots' of dominant policy discourses and their pedagogical consequences. The plurality of critical approaches also means that this book is necessarily multidisciplinary. A unique feature of this book is the fact that most authors are Indonesian academics who bring with them tacit knowledge of practices and issues. Overall, this book enriches the literature by bringing together different disciplinary perspectives such as political science, psychology, international relations, economics, and linguistics to critically examine important issues related to education in Indonesia.

The extraordinary works and contributions of writers with different backgrounds ranging from academics to bureaucrats make this book rich in treasures to see how far the scientific development of public administration is dealing with global conditions which are currently starting to show signs of revival. At the same time, we can learn from when local to national governments have to work hard to provide public policies in the form of a stimulus to help the country get out of the problems caused by disease outbreaks. This book is contained of 38 selected writings that can be an excellent literature for those who seek for reference on public policy. In addition, this book is expected to ignite further discussions within the scientific scope. Apart from the various shortcomings, we apologize profusely and hopefully this book can provide benefits to the wider community. We thank the authors and editors who have contributed their best energy, thoughts, and works.

Dinamika Perubahan Sosial Masyarakat di Masa Pandemi European Alliance for Innovation

Certainly, the pandemic has affected several aspects of life. Several modifications have been made and are now continuing. The number of

innovations has expanded substantially, particularly in the fields of education and social sciences. Innovations are produced by educators, scientists, and professionals. These innovations must be distributed to aid the development of society in the sphere of education and beyond. After the eradication of the disease, we shall assist one another in conquering it and then develop and prosper together. This volume contains the works of educators, researchers, practitioners, and academics presenting the most recent research results, issues, and practical difficulties and solutions found in the domains of Education, Cultural Studies, Applied Linguistics, and Community Services. Reimagining is a creative method to approach or address challenges associated with innovation in the fields of education, cultural studies, applied linguistics, community services, or social sciences. Due to the topic areas covered in this proceeding, it is appropriate for instructors, researchers, practitioners, and academics who specialize in the aforementioned subjects. Penyelenggaraan Program Detasering dilaksanakan oleh Ditjen Dikti Kemendikbudristek setiap tahun dan telah banyak melibatkan Perguruan Tinggi Sasaran (Pertisas) dan Detaser dari dosen Perguruan Tinggi Sumber (Pertisum). Program Detasering telah memberikan dampak positif terhadap kualitas perguruan tinggi, termasuk terhadap kualitas dosen Pertisas yang dibina. Sumber daya manusia, terutama dosen memiliki peran yang sangat sentral dalam menentukan tinggi rendahnya kualitas suatu perguruan tinggi. Dosen menempati posisi yang sangat strategis dan tidak dapat disubstitusi bahkan oleh penerapan teknologi, baik dalam pelaksanaan Tridarma Perguruan Tinggi (pendidikan, penelitian, dan pengabdian kepada masyarakat), maupun dalam pengelolaan Perguruan Tinggi (PT). Kualitas adalah kata kunci dalam rangka memajukan pendidikan tinggi di Indonesia, sebagaimana tertuang dalam Sistem Penjaminan Mutu Eksternal (SPME) oleh BAN-PT. Kehadiran Detaser di Pertisas memberikan nuansa baru dalam

meningkatkan kualitas, karena secara tidak langsung Detaser berperan sebagai konsultan eksternal sementara Pertisumnya menjadi benchmarking bagi Pertisas dalam menyusun peta jalan (road map) peningkatan kualitas. Berbagi untuk Negeri : Kiprah dan Pemikiran Detaser untuk Peningkatan Mutu Perguruan Tinggi Indonesia ini diterbitkan oleh Penerbit Deepublish dan tersedia juga dalam versi cetak.

This book highlights the vital necessity for combining sustainable development processes from different areas, with applications in areas such as science, education and production sectors. These sectors have previously been separated by linguistic and technological barriers. Breaking down these barriers will allow an interdisciplinary and transdisciplinary flow of information, leading to greater efficiency, and towards a more real resilient and sustainable economy development. This book fills in the gap in respect of publications addressing aspects of innovation and sustainable development and focuses on a range of areas, such as I. Gradual transition to innovative development; II. Continuity of technology in education, science and industry; III. Convergency directions, interdisciplinary relations in scientific research; IV. Digital technologies for sustainable development; V. Global trends and regional aspects of innovation and traditions in environmental management; VI. International legal regulations and environmental and economic relations among business communities. The publication fosters the global efforts towards taking better advantage of the many opportunities which innovation in specific areas may offer.

Guna menjawab berbagai tantangan dalam dunia pendidikan masa kini, Pemerintah meluncurkan program Merdeka Belajar yang menyatakan bahwa kemerdekaan belajar saat ini menjadi salah satu solusi konkret guna mengatasi permasalahan pendidikan yang begitu komplisit hingga pada tingkat daerah, termasuk satuan pendidikan menengah hingga pendidikan dasar. Hal ini dibuktikan melalui beragam studi yang menunjukkan bahwa para guru secara konseptual telah memahami program Merdeka Belajar dengan baik salah satu alasannya adalah kompetensi guru yang dianggap baik. Mereka sepakat dan menerima program reformasi dan peningkatan mutu pendidikan serta perubahan zaman. Hanya saja terdapat tantangan dalam implementasinya salah satunya adalah sistim zonasi dimana jumlah guru di setiap satuan sekolah belum terdistribusi merata, serta kurangnya infrastruktur pendukung pembelajaran online dan penguasaan teknologi oleh guru juga menghambat keberhasilan program.

This volume presents a theoretical and strategic discussion on the linkages between sustainable graduate employability and economic growth. With case studies from India, South Africa, Taiwan, UK, Germany, USA, UAE, Australia, and France, it looks at the skills training and education landscape around the world, examines the state of employment, and offers case-specific recommendations. The book analyzes the role of higher education and vocational education policies and strategies in integrating skill training in education in order to achieve quality education and sustainable employment for all. An important critique of skills training, education policy and planning, the volume will be an essential read for scholars and researchers of sustainable development, development studies, public policy, political economy, labour studies, and education. It will also be useful for policymakers.
