First Reconciliation and Beyond is a resource for Catholic parishes. The Leader Guide contains everything a catechist needs to lead one parents' session and four children's sessions to prepare for celebrating the sacrament of reconciliation. The emphasis is not just on "first reconciliation" but the ongoing experience of growing in relationship with Christ and the Christian community. The sessions focus on the theology, scripture, symbols, and experience of the sacramental ritual. The book includes age appropriate activities and discussions for both younger (ages 7-8) and older (ages 9-11) children.

Contemplative prayer is a way of saying yes to God's transformative presence. *Centering Prayer for Everyone* is the most welcoming and accessible guide to Christian contemplative practice available. Focusing on five practices—lectio divina, visio divina, walking meditation, chanting the Psalms, and the silent practice of centering prayer—this practical guide collects in one volume everything needed to learn these practices, including concise instructions, readings, and programs. Clearly formatted so that instructions and programs are easy to find at a glance, *Centering Prayer for Everyone* can inspire beginners to enter the practices immediately and includes detailed instructions for starting and facilitating both in-person and digital

prayer groups. This inclusive handbook explicitly welcomes everyone to these practices, whatever their beliefs or doubts, including Christians, meditators from other traditions, twelve-step members, and anyone filled with longing for spiritual transformation and connection with God.

You've undoubtedly heard the expression "time heals all wounds." Unfortunately, it isn't true. As many pastors and counselors know, people still carry hurts from thirty or forty years ago. The truth is, time often makes things worse. Wounds that are left untended fester and spread infection throughout your entire body. Time only extends the pain if the problem isn't dealt with. Your *First Step to Celebrate Recovery* introduces you to a biblical and balanced program that has helped nearly a million people overcome their hurts, hang-ups, and habits. Based on the actual words of Jesus found in the Sermon on the Mount rather than psychological theory, the *Celebrate Recovery* program has helped people for over 20 years to grow toward full Christ-like maturity. Author and founder John Baker tells the true story of how *Celebrate Recovery* became one of the largest Christ-centered recovery programs in history. Baker will help you discover how God's love, truth, grace and forgiveness can bring healing into your life.

We live in a visual culture. Today, people increasingly rely upon visuals to help them understand new and difficult concepts. The rise and stunning popularity of the Internet infographic has given us a new way in which to convey data, concepts and ideas. But the visual portrayal of truth is not a novel idea. Indeed, God himself used visuals to teach truth to his people. The tabernacle of the Old Testament was a visual representation of man's distance from God and God's condescension to his people. Each part of the tabernacle was meant to display something of man's treason against God and God's kind response. Likewise, the sacraments of the New Testament are visual representations of man's sin and God's response. Even the cross was both reality and a visual demonstration. As teachers and lovers of sound theology, Challies and Byers have a deep desire to convey the concepts and principles of systematic theology in a fresh, beautiful and informative way. In this book, they have made the deepest truths of the Bible accessible in a way that can be seen and understood by a visual generation.

In 2003 Trisha Day spent three months living inside the enclosure of Our Lady of the Mississippi Abbey, a community of twenty Cistercian nuns. Although she had long been monastic associate, she was startled by the unexpected challenges and insights that emerged as the weeks went by, and began a process

of profound reflection on her experience. Now, drawing on her journals and reflections, and on her own experience as a professional woman, wife, daughter, and mother, she delves into the questions of how the centuries-old wisdom of monastic life can challenge, inspire, and guide those living outside the monastery. Organized around topics such as prayer, community, and the vows, each of Day's reflections begins with memories of her monastic experience, and then presents a perceptive and often humorous critique of the contrasting values of our present culture. For each topic she chronicles with honesty and humility her subsequent struggles to apply back home the alternative approaches learned from the sisters she lived with, and offers a wealth of practical suggestions. Filled with stories from her own life and fascinating details of daily life in the monastery, her book is sure to strike a spark with all those seeking to live in a fully human and Christ-centered way.

How does science enhance faith? Is God relevant in an age of science? *Science and Faith: Student Questions Explored* investigates the relationship between science and Christianity in a series of thoughtful and accessible articles written by experts. Chosen from InterVarsity's Emerging Scholars Network blog, each chapter addresses common faith- and

science-related questions. In part one, *Science and Faith* delves into why Christians should pursue scientific discovery, as well as the Bible's viewpoint on scientific method and inquiry. Part two begins the conversation on the direct relevance of science to faith and how Christian scientists can talk to their colleagues about their faith, while part three discusses how conversations about science can take place between Christians. Finally, part four explores the history of science and the church and the question How can the history of science encourage the church? While ideal for graduate students who are exploring their faith and their chosen scientific fields, this book can also be used in church settings or as a personal resource. The book provides questions to launch small group conversation about faith/science, whether you're a science PhD, a ministry leader, or an interested layperson. Since each reading is based on questions from real students, it may also be a resource for Christian faculty teaching the sciences. Contributors include Ruth Banciewicz, Gerald Rau, Greg Cootsona, Andy Walsh, and more. *Total Faith Initiative Coordinator's Manual* Church Publishing, Inc.
