Estimating and Bidding for Builders and Remodelers U.S. Government Printing Office

A no-nonsense guide to supervising and completing construction jobs, written by two men who have 75 years of construction experience between them. This Second Edition addresses the changes in the construction superintendent's responsibilities since the first edition came out in 1979 (most notably the increased reliance on the general contractor's superintendent to maintain schedule requirements and oversee subcontractors' performance). Topics covered run the gamut, from the initial excavation, through all the trades involved in a construction project, to installing the utilities and final furnishings. Contractors (and students) will find this manual indispensable in scheduling and managing the various aspects of construction projects.

The purpose of this manual is to provide clear and helpful information for maintaining gravel roads. Very little technical help is available to small agencies that are responsible for managing these roads. Gravel road maintenance has traditionally been

"more of an art than a science" and very few formal standards exist. This manual contains guidelines to help answer the questions that arise concerning gravel road maintenance such as: What is enough surface crown? What is too much? What causes corrugation? The information is as nontechnical as possible without sacrificing clear guidelines and instructions on how to do the job right.

Title shows resumes and cover letters of people seeking employment in the construction industry. Job hunting techniques are explained in step-by-step fashion in order to benefit those seeking construction work. Because the construction industry tends to be cyclical, a helpful section is included which describes how to transfer construction industry experience to other fields and industries. The book's main contents are the resumes and cover letters of construction industry professionals. Included are resumes of project manager, carpenter, foreman, safety manager, electrician, brick mason, engineering manager, real estate agent, plumber, job planner, sander, flooring installer, interior designer, independent contractor, and many others.
