'I Had a Black Dog says with wit, insight, economy and complete understanding what other books take 300 pages to say. Brilliant and indispensable.' - Stephen Fry 'Finally, a book about depression that isn't a prescriptive self-help manual. Johnston's deftly expresses how lonely and isolating depression can be for sufferers. Poignant and humorous in equal measure.' Sunday Times There are many different breeds of Black Dog affecting millions of people from all walks of life. The Black Dog is an equal opportunity mongrel. It was Winston Churchill who popularized the phrase Black Dog to describe the bouts of depression he experienced for much of his life. Matthew Johnstone, a sufferer himself, has written and illustrated this moving and uplifting insight into what it is like to have a Black Dog as a companion and how he learned to tame it and bring it to heel.

Choosing to Live Westminster John Knox Press

"A quietly brilliant book that warms slowly in the hands." —Dwight Garner, *The New York Times* I am not talking about surviving. I am not talking about becoming human, but about how I came to realize that I had always already been human. I am writing about all that I wanted to have, and how I got it. I am writing about what it cost, and how I was able to afford it. Jan Grue was diagnosed with spinal muscular atrophy at the age of three. Shifting between specific periods of his life—his youth with his parents and sister in Norway; his years of study in Berkeley, St. Petersburg, and Amsterdam; and his current life as a professor, husband, and father—he intersperses these histories with elegant, astonishingly wise reflections on the world, social structures, disability, loss, relationships, and the body: in short, on what it means to be

human. Along the way, Grue moves effortlessly between his own story and those of others, incorporating reflections on philosophy, film, art, and the work of writers from Joan Didion to Michael Foucault. He revives the cold, clinical language of his childhood, drawing from a stack of medical records that first forced the boy who thought of himself as “just Jan” to perceive that his body, and therefore his self, was defined by its defects. *I Live a Life Like Yours* is a love story. It is rich with loss, sorrow, and joy, and with the details of one life: a girlfriend pushing Grue through the airport and forgetting him next to the baggage claim; schoolmates forming a chain behind his wheelchair on the ice one winter day; his parents writing desperate letters in search of proper treatment for their son; his own young son climbing into his lap as he sits in his wheelchair, only to leap down and run away too quickly to catch. It is a story about accepting one's own body and limitations, and learning to love life as it is while remaining open to hope and discovery.

An inspiring memoir of life, love, loss, and new beginnings by the widower of bestselling children's author and filmmaker Amy Krouse Rosenthal, whose last act of love before her death was setting the stage for her husband's life without her in the viral *New York Times* Modern Love column, “You May Want to Marry My Husband.” On March 3, 2017, Amy Krouse Rosenthal penned an op-ed piece for the *New York Times*' “Modern Love” column —“You May Want to Marry My Husband.” It appeared ten days before her death from ovarian cancer. A heartbreaking, wry, brutally honest, and creative play on a personal ad—in which a dying wife encouraged her husband to go on and find happiness after her demise—the column quickly went viral, reaching more than five million people worldwide. In *My Wife Said You May Want to Marry Me*, Jason describes what came next: his commitment to respecting Amy's wish, even as he struggled with her loss.

Surveying his life before, with, and after Amy, Jason ruminates on love, the pain of watching a loved one suffer, and what it means to heal—how he and their three children, despite their profound sorrow, went on. Jason's emotional journey offers insights on dying and death and the excruciating pain of losing a soulmate, and illuminates the lessons he learned. As he reflects on Amy's gift to him—a fresh start to fill his empty space with a new story—Jason describes how he continues to honor Amy's life and her last wish, and how he seeks to appreciate every day and live in the moment while trying to help others coping with loss. *My Wife Said You May Want to Marry Me* is the poignant, unreserved, and inspiring story of a great love, the aftermath of a marriage ended too soon, and how a surviving partner eventually found a new perspective on life's joys in the wake of tremendous loss.

How Do You Live? Hachette Books

Award-winning journalist Stephen Petranek says humans will live on Mars by 2027. Now he makes the case that living on Mars is not just plausible, but inevitable. It sounds like science fiction, but Stephen Petranek considers it fact: Within twenty years, humans will live on Mars. We’ll need to. In this sweeping, provocative book that mixes business, science, and human reporting, Petranek makes the case that living on Mars is an essential back-up plan for humanity and explains in fascinating detail just how it will happen. The race is on. Private companies, driven by iconoclastic entrepreneurs, such as Elon Musk, Jeff Bezos, Paul Allen, and Sir Richard Branson; Dutch reality show and space mission Mars One; NASA; and the Chinese government are among the many groups competing to plant the first stake on Mars and open the door for human habitation. Why go to Mars? Life on Mars has potential life-saving possibilities for everyone on earth. Depleting water supplies, overwhelming climate change, and a host of other disasters—from terrorist attacks to meteor strikes—all loom large. We must become a space-faring species to survive. We have the technology not only to get humans to Mars, but to convert Mars into another habitable planet. It will likely take 300 years to “terraform” Mars, as the jargon goes, but we can turn it into a veritable second Garden of Eden. And we can live there, in specially designed habitations, within the next twenty years. In this exciting chronicle, Petranek introduces the circus of lively characters all engaged in a dramatic effort to be the first to settle the Red Planet. How We’ll Live on Mars brings firsthand reporting, interviews with key participants, and extensive research to bear on the question of how we can expect to see life on Mars within the next twenty years.

He shared with them a set of guidelines that have helped him find meaning in his own life, which led to this now-classic article. Although Christensen’s thinking is rooted in his deep religious faith, these are strategies anyone can use.
