the world for millennia. It helped to change the world, and the world transformed the institution. In the 1450s, when Europeans from the small corner of the globe least enmeshed in the institution first interacted with peoples of other continents, they created, in the Americas, the most dynamic, productive, and exploitative system of coerced labor in human history. Three centuries later

these same intercontinental actions produced a movement that successfully challenged the institution at the peak of its dynamism. Within another century a new surge of European expansion constructed Old World empires under the banner of antislavery. However, twentieth-century Europe itself was inundated by a new system of slavery, larger and more deadly than its earlier

system of New World slavery. This book examines these dramatic expansions and contractions of the institution of slavery and the impact of violence, economics, and civil society in the ebb and flow of slavery and antislavery during the last five centuries. *When Scotland Was Jewish Good* Press This work has been selected by scholars as being culturally important,

Church in Australasia, explorer, linguist, political activist, apologist for the missionary enterprise, amateur anthropologist, writer, constant traveller, collector of artefacts, photographer and stirrer. He saw himself, at heart, as a missionary. The islands of the Pacific Ocean were the scene of his endeavours, with extended periods lived in Samoa and the New Britain region

of today's Papua New Guinea, followed by repeated visits to Tonga, Fiji, the Milne Bay region of Papua New Guinea and the Solomon Islands. It could be argued that while he was a missionary in the Pacific region he was not a Pacific missionary. Brown gained unwanted notoriety for involvement in a violent confrontation at one point in his career, and lived through conflict in many contexts

but he also frequently worked as a peace maker. Policies he helped shape on issues such as church union, indigenous leadership, representation by lay people and a wider role for women continue to influence Uniting Church in Australia and churches in the Pacific region. His name is still remembered with honour in several parts of the Pacific. Brown's marriage to Sarah Lydia

Wallis, daughter of pioneer missionaries to New Zealand, was long and rich. Each strengthened the other and they stand side by side in this account. Reeds Maritime Meteorology Cambridge University Press The contributors to this volume investigate the role of comparative practices in the formation of eighteenth-century literature and culture. The book

conceives of social practices of comparing as being entrenched in networks of circulation and considers how such practices ordered and changed British literature and culture. Bushnell Family Genealogy Good Press The popular image of Scotland is dominated by widely recognized elements of Celtic culture. But a significant non-Celtic influence on Scotland's

history has been largely ignored for centuries? This book argues that much of Scotland's history and culture from 1100 forward is Jewish. The authors provide evidence that many of the national heroes, villains, rulers, nobles, traders, merchants, bishops, guild members, burgesses, and ministers of Scotland were of Jewish descent, their ancestors originating in France and

Spain. Much of the traditional historical account of Scotland, it is proposed, rests on fundamental interpretive errors, perpetuated in order to affirm Scotland's identity as a Celtic, Christian society. A more accurate and profound understanding of Scottish history has thus been buried. The authors' wide-ranging research includes examination of census records, archaeological

artifacts,
castle
carvings,
cemetery
inscriptions,
religious seals,
coinage,
burgess and
guild member
rolls, noble
genealogies,
family crests,

For reasons she can't quite explain, Alex Morrow is addicted to watching surveillance footage of Roxanna Fuentecilla--a gorgeous Spanish mother of two, in a tempestuous relationship with her boyfriend, who recently relocated to Glasgow under mysterious circumstances. She is also Morrow's prime suspect in an investigation that resembles a soap opera, filled with glamorous jetsetters and enough money to interest the highest levels of law enforcement. Until Roxanna vanishes.

Morrow traces Roxanna's steps to Helensburgh, a sleepy, picturesque seaside community. But behind the idyllic Victorian homes and quaint storefronts, darkness lurks. Home to a man with blood on his hands who is haunted by guilt, a mysterious woman with ulterior motives back in town for the first time in decades, a sexually frustrated restaurateur looking to

blow off steam, and a crew of vicious small-time gangsters blindly following orders, it's a town ruled by base instincts where no one is quite what they seem. And it's the perfect place to get rid of someone. When she uncovers an unsettling connection to Roxanna's job back in Glasgow, Morrow suspects that her missing person is more than a white-collar criminal on

the lam--she may also be a victim caught up in a sophisticated conspiracy that stretches far beyond Helensburgh and is more personal than Morrow ever imagined. As the truth rises to the surface and the conflicts that lie beneath Helensburgh's calm waters threaten to explode, Morrow must find Roxanna before any hope of solving the case disappears with her. A gripping tale of greed,

power, and vengeance, Blood, Salt, Water is a masterful crime novel from Denise Mina that confirms her reputation as "one of the genre's brights stars" (George Pelecanos). *Seamanship Notes* Readme Publishing Winner of the 2011 Blue Peter Book of the Year Award, DEAD MAN'S COVE is the first book in a gripping adventure series about eleven-year-old ace detective, Laura Marlin,

WATRIAMA
AND CO (the
title echoes
Kipling's
STALKY AND
CO!) is a
collection of
biographical
essays about
people
associated
with the
Pacific Islands.
It covers a
period of
almost a
century and a
half. However,
the individual
stories of first-
hand
experience
converge to
some extent
in various
ways so as to

present a
broadly
coherent
picture of
'Pacific
History'. In
this, politics,
economics
and religion
overlap. So,
too, do
indigenous
cultures and
concerns;
together with
the activities
and interests
of the
Europeans
who ventured
into the Pacific
and who had a
profound,
widespread
and enduring
impact there
from the
nineteenth
century, and
who also
prompted
reactions from

the Island
peoples. Not
least
significant in
this process is
the fact that
the Europeans
generated a
'paper trail'
through which
their stories
and those of
the Islanders
(who also
contributed to
their written
record) can be
known. Thus,
not only are
the subjects of
the essays to
be
encountered
personally,
and within a
contextual
kinship, but
the way in
which the past
has shaped
the future is
clearly

discernible. Watriama himself features in various historical narratives. So, too, certain of his confreres in this collection, which is the product of several decades of exploring the Pacific past in archives, by sea, and on foot through most of Oceania. Blood, Salt, Water Routledge

In the first two decades of the Cold War, Australia fought in three conflicts and prepared to fight in a possible wider conflagration in Southeast Asia and the Pacific. In Korea, Malaya and Borneo, Australian forces encountered new types of warfare, integrated new equipment and ideas, and were part of the longest continual overseas deployments in Australia's history. Working closely with its allies, Australia also trained for a large conventional war in Southeast Asia, while a significant percentage of the defence force guarded the Papua New Guinea-Indonesian border. At home, the Defence organisation grappled with new threats and military expansion, while the Australian Security Intelligence Organisation defended the nation from domestic and foreign threats. This book examines this crucial part of Australia's security

history, so often overlooked as merely a precursor to the Vietnam War. It addresses key questions such as how did Australia achieve its security goals at home and in the region in this new Cold War environment? What were the experiences of the services, units and individuals serving in Southeast Asia? How did this period shape Australia's defence for years to come?
