A Princeton

explores
whether
journeying to
the past or
future is

scientifically
possible in
this
“intriguing”
volume (Neil

H. G. Wells
who coined
the term
“time
machine”—bu
t the concept
of time travel,
both forward
and backward,
has always

provoked
fascination
and yearning.
It has mostly
been
dismissed as
an
impossibility
in the world of
physics; yet
theories
posited by
Einstein, and
advanced by
scientists
including
Stephen

Hawking and Kip Thorne, suggest that the phenomenon could actually occur. Building on these ideas, J. Richard Gott, a professor who has written on the subject for *Scientific American*, *Time*, and other publications, describes how travel to the future is not only possible but has already happened—and d contemplates whether travel to the past is also conceivable.

This look at the surprising facts behind the science fiction of time travel “deserves the attention of anyone wanting wider intellectual horizons” (Booklist). “Impressively clear language. Practical tips for chrononauts on their options for travel and the contingencies to prepare for make everything sound bizarrely plausible. Gott clearly enjoys his subject and his

excitement and humor are contagious; this book is a delight to read.” —Publishers Weekly *Kiss and Tell* Hachette Books Hannah Sugarman seems to have it all. She works for an influential think tank in Washington, D.C., lives in a swanky apartment with her high-achieving boyfriend, and is poised for an academic career just like her parents. The only problem is that Hannah

doesn't want any of it. What she wants is much simpler; to cook. When her relationship collapses, Hannah seizes the chance to do what she's always loved and launches an underground supper club out of her new landlord's town house. Though her delicious dishes become the talk of the town, her secret venture is highly problematic, given that it is not, technically speaking,

legal. She also conveniently forgets to tell her landlord she has been using his place while he is out of town. On top of that, Hannah faces various romantic prospects that leave her guessing and confused, parents who don't support cooking as a career, and her own fears of taking a risk and charting her own path. A charming romantic comedy, *The Girls' Guide to Love and Supper Clubs* is a story

about finding yourself, fulfilling your dreams, and falling in love along the way. *Varekai* Simon and Schuster *Bedrohliche Stimmung im Speckgürtel! Brutaler Frauenmord direkt vor den Toren Berlins! This last book by Ödön von Horváth, one of the 20th- century's great but forgotten writers, is a dark fable about guilt, fate, and the individual conscience. “sabotage of the Fatherland,” and his students revolt. A murder follows, and the teacher must face his role in it, even if it costs him everything. Horváth’s book both points to its immediate context—the brutalizing conformity of a totalitarian state, the emptiness of faith in the time of the National Socialists—and beyond, to the struggles of individuals everywhere against

societies that offer material security in exchange for the abandonment of one’s convictions. Reminiscent of Camus’ *The Stranger* in its themes and its style, *Youth Without God* portrays a world of individual ruthlessness and collective numbness to the appeals of faith or morality. And yet, a commitment to the truth lifts the teacher and a small band of like-minded students out of this

deepening abyss. It’s a reminder that such commitment did exist in those troubled times—indeed, they’re what led the author to flee Germany, first for Austria, and then France, where he met his death in a tragic accident, just two years after the publication of *Youth Without God*. Long out of print, this new edition resurrects a bracing and still-disturbing vision. “Horváth was telling the

truth.
Furiously.”

Red Love

Minotaur Books
In this electrifying thriller—a bestseller in Great Britain

and Ireland—Alex Barclay creates a stunning array of contrasts—from the violence of a cop's world to the fragility of an embattled marriage, from the danger of New York's gritty streets to the quiet of a seaside Irish village. With brilliance and subtlety, Barclay delivers a nerve-racking tale of a troubled family, facing a brutal danger rushing relentlessly

out of the past. One year has passed since a kidnapping drama exploded into violence on a New York street. And for NYPD detective Joe Lucchesi, the memory of that terrible moment is still alive. Joe's wife, Anna, has brought him and their teenage son to Ireland, hoping to repair their fragile marriage—and cut the cord between Joe and the job. But when the girlfriend of their son

vanishes, Joe begins to suspect that the crime may have its roots in his old life—and that someone has followed him all the way there.... An outsider in Ireland, Joe watches with rising apprehension as local cops try to solve the disappearance—and then reacts with fury when his son becomes the leading suspect. Frantically, Joe tries to piece together clues to the crime, certain that a predator has

come to Ireland in a twisted act of vengeance. And in a culture he doesn't understand, among people who may or may not be his friends, Joe must find a way to strike back...against a vicious killer who has Joe's family in his sights.... A novel that plunges like a knife, Darkhouse delves into the intimate struggles between a husband and wife, between lovers and desperate friends.

Seething with menace and mounting dread, Alex Barclay's ingenious tale of a family under siege ratchets up the suspense one shocking revelation at a time as it races to its shattering climax.... *Time Travel in Einstein's Universe* Minotaur Books

 continues the

 C. Beaton's

Agatha Raisin mystery series—now a hit show on Acorn TV and public television. When a fortune teller from a previous case informs Agatha Raisin that her destiny-and true love-lies in Norfolk, she promptly rents a cottage in the quaint village of Fryfam. No sooner does she arrive than strange things start happening. Random objects go missing from people's homes and

odd little lights are seen dancing in the villagers' gardens and yards. Stories soon begin circulating about the presence of fairies. But when a prominent village resident is found murdered, and some suspicion falls on her and her friend Sir Charles Fraith, Agatha decides she's had enough of this fairy nonsense and steps up her sleuthing for a human killer. The prickly yet endearing

Agatha will have fans dangling in suspense: Will she catch her crook-and a husband? *Darkhouse* Hachette UK Winner of the European Book Prize "The East isn't far away at all. It clings to me, it goes everywhere. It's like a big family that you can't shake off ..." "Tender, acute and utterly absorbing" Anna Funder, author of *Stasiland* "A wry and unheroic witness... an unofficial

history of a country that no longer exists" Julian Barnes Growing up in East Berlin, Maxim Leo knew not to ask questions. All he knew was that his rebellious parents, Wolf and Anne, with their dyed hair, leather jackets and insistence he call them by their first names, were a bit embarrassing. That there were some places you couldn't play; certain things you didn't say. Now, married with two

children and the Wall a distant memory, Maxim decides to find the answers to the questions he couldn't ask. Why did his parents, once passionately in love, grow apart? Why did his father become so angry, and his mother quit her career in journalism? And why did his grandfather Gerhard, the Socialist war hero, turn into a stranger? The story he unearths is, like his country's past,

one of hopes, lies, cruelties, betrayals but also love. In Red Love he captures, with warmth and unflinching honesty, why so many dreamed the GDR would be a new world and why, in the end, it fell apart. "Tender, acute and utterly absorbing. In fine portraits of his family members Leo takes us through three generations of his family, showing how they adopt, reject and survive the fierce, uplifting and

ultimately catastrophic ideologies of 20th-century Europe. We are taken on an intimate journey from the exhilaration and extreme courage of the French Resistance to the uncomfortable moral accommodations of passive resistance in the GDR. "He describes these 'ordinary lies' and contradictions, and the way human beings have to negotiate their way through them, with

great clarity, humour and truthfulness, for which the jury of the European Book Prize is delighted to honour Red Love . His personal memoir serves as an unofficial history of a country that no longer exists... He is a wry and unheroic witness to the distorting impact - sometimes frightening, sometimes merely absurd - that ideology has upon the daily life of the individual: citizens only

allowed to dance in couples, journalists unable to mention car tyres or washing machines for reasons of state." Julian Barnes, European Book Prize With wonderful insight Leo shows how the human need to believe and to belong to a cause greater than ourselves can inspire a person to acts of heroism, but can then ossify into loyalty to a cause that long ago betrayed its

people." Anna Funder, author of Stasiland "Heartbreakin g... This very personal account allows us to better understand the reality of a kafkaesque regime, and the blindness of its elite that allowed it to survive for so long." La Tribune "The great charm of this book, about the gradual disintegration of the GDR, lies in the level-headed but loving attitude with which it investigates the interweaving of the private and political [in Communist East Germany], revisiting a child's-eye view of the era." Frankfurter Allgemeine Zeitung "A crucial book ... poignant ... a tragedy reminiscent of the great narrative poets, Dostoevsky or Koestler. Maxim Leo has earned his place alongside them." Sud Ouest "A lyrical story about a family in a divided city" Hamburger Abendblatt Maxim Leo was born in 1970 in East Berlin. He studied Political Science at the Free University in Berlin and at the Institut d'Etudes Politiques de Paris. Since 1997 he is Editor of the Berliner Zeitung . In 2002 he was nominated for the Egon-Erwin-Kisch Prize, and in the same year won the German-French Journalism Prize. He won the Theodor Wolff Prize in

2006. He lives in Berlin.

Between 1929 and 1943 die neue linie (the new line) was published by Beyer Press in Leipzig. An outstanding lifestyle magazine of its time, superficially it provided only luxurious entertainment . However it had a progressive and forward-looking concept compared to other mass media: no other publication was so

consistent in bringing avant-garde typographic ideas to a mass audience; leading graphic designers influenced by the Bauhaus had a decisive effect on the look of the magazine. Despite the prevailing media conformity, the modern Bauhaus style ndash; a style hated by the Nazi regime up to and during the Second World War ndash; was largely spared the sanctions of

the dictatorship. This publication illustrates the turbulent times of the magazine die neue linie and its era, and is published in an abridged, revised and now bilingual edition of the 2007 bestseller, for the Bauhaus Year 2009.

A serial killer with all the time in the world...From a stunning new voice in crime fiction.

Stephen Killigan has been cold since the day he arrived in Cambridge. Seven hundred years of history staining the stones of the university have given him a chill he can't shake. Then he stumbles across the body of a missing beauty queen - a body which

disappears before the police arrive... Unwittingly, Killigan has entered the sinister world of Jackamore Grass on a trail that reaches back to seventeenth-century Cambridge. It's a world of cadavers, philosophers and scholars of deadly beauty, a world where a person's corpse can be found before they even go missing, of a city and a person that hold far too many secrets written in

blood.

Every animal, whether

human, squid, or wasp, is home to millions of bacteria and other microbes. Pulitzer Prize-winning author Ed Yong, whose humor is as evident as his erudition, prompts us to look at ourselves and our animal companions in a new light—less as individuals and more as the interconnected, interdependent multitudes we assuredly are. The microbes in our bodies are

part of our immune systems and protect us from disease. In the deep oceans, mysterious creatures without mouths or guts depend on microbes for all their energy. Bacteria provide squid with invisibility cloaks, help beetles to bring down forests, and allow worms to cause diseases that afflict millions of people. Many people think of microbes as germs to be

eradicated, but those that live with us—the microbiome—build our bodies, protect our health, shape our identities, and grant us incredible abilities. In this astonishing book, Ed Yong takes us on a grand tour through our microbial partners, and introduces us to the scientists on the front lines of discovery. It will change both our view of nature and our sense of where we belong in it.

 Few developments in the industrial era have had a greater impact on everyday social life than the explosion of the mass media and commercial entertainments, and none have exerted a more profound influence on the nature of modern

politics. Nowhere in Europe were the tensions and controversies surrounding the rise of mass culture more politically charged than in Germany—debates that played fatefully into the hands of the radical right. Corey Ross provides the first general account of the expansion of the mass media in Germany up to the Second World War, examining how the rise of film, radio,

By locating the rapid expansion of communications media and commercial entertainment s firmly within their broader social and political context, Ross sheds new light on the relationship between mass media, social change, and political culture during this tumultuous period in German history. <i>Nietzsche für Zeitgenossen</i> Library of</p>	<p>Alexandria Bump number one - Just when Taz Norton's life is on a smooth upward glide - youngest sales manager at a flagship department store, own flat, cat and vintage motorbike - her lover leaves her for her ex-best friend.
