REILLY ALIJAH

La Librairie française Harvard University Press

A new edition of the bestselling classic – published with a special introduction to mark its 10th anniversary This pioneering account sets out to understand the structure of the human brain – the place where mind meets matter. Until recently, the left hemisphere of our brain has been seen as the ‘rational’ side, the superior partner to the right. But is this distinction true? Drawing on a vast body of experimental research, Iain McGilchrist argues while our left brain makes for a wonderful servant, it is a very poor master. As he shows, it is the right side which is the more reliable and insightful. Without it, our world would be mechanistic – stripped of depth, colour and value.

Bernard Beugnot et José-Michel Moureaux ont puisé l'idée de ce manuel dans l'expérience commune d'un séminaire sur "Recherche et littérature". Ils ont voulu répondre aux besoins habituellement manifestés par les étudiants de maîtrise et de doctorat, sans oublier pour autant les étudiants plus jeunes qui, trop souvent, vivent leurs premières années d'universitaire dans une ignorance préjudiciable.

"In this elegantly constructed study of the early decades of public opera, the conflicts and cooperation of poets, composers, managers, designers, and singers—producing the art form that was soon to sweep the world and that has been dominant ever since—are revealed in their first freshness."—Andrew Porter "This

will be a standard work on the subject of the rise of Venetian opera for decades. Rosand has provided a decisive contribution to the reshaping of the entire subject. . . . She offers a profoundly new view of baroque opera based on a solid documentary and historical-critical foundation. The treatment of the artistic self-consciousness and professional activities of the librettists, impresarios, singers, and composers is exemplary, as is the examination of their reciprocal relations. This work will have a positive effect not only on studies of 17th-century, but on the history of opera in general."—Lorenzo Bianconi

Oeuvres complètes Rizzoli Publications

A meditation on escaping the chaos of modern life and rediscovering the luxury of solitude. Winner of the Prix Médicis for nonfiction, *The Consolations of the Forest* is a Thoreau-esque quest to find solace, taken to the extreme. No stranger to inhospitable places, Sylvain Tesson exiles himself to a wooden cabin on Siberia's Lake Baikal, a full day's hike from any "neighbor," with his thoughts, his books, a couple of dogs, and many bottles of vodka for company. Writing from February to July, he shares his deep appreciation for the harsh but beautiful land, the resilient men and women who populate it, and the bizarre and tragic history that has given Siberia an almost mythological place in the imagination. Rich with observation, introspection, and the good humor necessary to laugh at his own folly, Tesson's memoir is about the ultimate freedom of owning your own time. Only in the hands of a gifted storyteller can an experiment in isolation become an exceptional adventure accessible to all. By recording his impressions in the face of silence, his struggles in a hostile environment, his hopes, doubts, and moments of pure joy in communion with nature, Tesson makes a decidedly out-of-the-ordinary experience relatable. The awe and joy are contagious, and one comes away with the comforting knowledge that "as long as there is a cabin deep in the woods, nothing is completely lost."

A compelling account of politics and social philosophy in Levinas's Talmudic commentaries Emmanuel Levinas (1906-1995) was a French philosopher known for his radical ethics and for his contribution to Jewish thought in his commentaries on Talmudic sources. In Levinas's *Politics*, Annabel Herzog confronts a major difficulty in Levinas's philosophy: the relationship between ethics and politics. Levinas's ethics describes the encounter with the other, that is, with any other human being. For Levinas, the face-to-face encounter is a relationship in which the ego is commanded by a transcendent and unquestionable order to take responsibility for the other person. *Politics*, on the other hand, presupposes at least three people: the ego, the other, and any third party. Among three people, nothing can be transcendent; on the contrary, everything must be negotiated. Against the conventional view of Levinas's conception of the political as the interruption and collapse of the ethical, Herzog argues that in the Talmudic readings, Levinas constructed politics positively. She shows that Levinas's Talmudic readings embody a pragmatism that complements, revises, and challenges the extreme ethical analyses he offers in his phenomenological works—*Totality and Infinity*, *Otherwise than Being*, and *Of God Who Comes to Mind*. Her analysis illuminates Levinas's explanations of the relationship between ethics and politics: ethics is the foundation of justice; justice contains a necessary violence that must be moderated by mercy; and justice, general laws, and national aspirations must be linked in an attempt to "improve universality itself."

This book is significant for its concept of "openness"--the artist's decision to leave arrangements of some constituents of a work to the public or to chance--and for its anticipation of two themes of literary theory: the element of multiplicity and plurality in art, and the insistence on literary response as an interaction between reader and text.

NEW YORK TIMES BESTSELLER • NATIONAL BOOK AWARD

WINNER • From one of America's iconic writers, a stunning book of electric honesty and passion that explores an intensely personal yet universal experience: a portrait of a marriage—and a life, in good times and bad—that will speak to anyone who has ever loved a husband or wife or child. Several days before Christmas 2003, John Gregory Dunne and Joan Didion saw their only daughter, Quintana, fall ill with what seemed at first flu, then pneumonia, then complete septic shock. She was put into an induced coma and placed on life support. Days later—the night before New Year's Eve—the Dunnes were just sitting down to dinner after visiting the hospital when John Gregory Dunne suffered a massive and fatal coronary. In a second, this close,

symbiotic partnership of forty years was over. Four weeks later, their daughter pulled through. Two months after that, arriving at LAX, she collapsed and underwent six hours of brain surgery at UCLA Medical Center to relieve a massive hematoma. This powerful book is Didion's attempt to make sense of the "weeks and then months that cut loose any fixed idea I ever had about death, about illness ... about marriage and children and memory ... about the shallowness of sanity, about life itself.
