The story of Krishnamurti, one of the twentieth century's most influential and controversial spiritual figures, takes place in the crucible of sexual scandal, mysticism, and an extraordinary personal history. "Discovered" by a leader of the Theosophical Society, Krishnamurti was hailed as a messiah and groomed to be the new World Leader. Rejecting the society's claims, he then set out on a teaching career that covered six decades, and produced fifty books and thousands of talks. Until his death in 1986, he continued to challenge many generally cherished ideas of spirituality. His lectures, books, and interviews are still widely read and studied. In this first truly objective biography, English author Roland Vernon uses primary and secondary sources as well as numerous unattributed interviews with Krishnamurti's friends and students to provide a wealth of detail. With unflinching and non-judgmental clarity, Vernon describes the details of Krishnamurti's life, including his formative years with the allegedly pedophilic Charles Leadbeater and the notorious Anne Besant, and the painful purification "process" that he was forced to undergo. Vernon also provides insight

into Krishnamurti's highly-private personal life, including an extended clandestine affair with longtime friend Rosalind Williams Rajagopal. By painting full pictures of the people who most influenced Krishnamurti, especially in his formative years, the author gives valuable clues to some of the often less well-illuminated aspects of Krishnamurti's character.

The publication of the King James version of the Bible, translated between 1603 and 1611, coincided

with an extraordinary flowering of English literature and is universally acknowledged as the greatest influence on English-language literature in history. Now, world-class literary writers introduce the book of the King James Bible in a series of beautifully designed, small-format volumes. The introducers' passionate, provocative, and personal engagements with the spirituality and the language of the text make the Bible come alive as a stunning work of literature and remind us of its overwhelming contemporary relevance.

#### *The Star in the East* BRILL

Hi! My name is Rebecca. I am the Author of the bestselling book for transitioning from Primary to Secondary called "I Can't Do It Yet...But School Is Epic". I am also the pioneer of the Youtube videos on our channel (GirlsparklesAbel). After publishing my first book last year, I have been encouraged by family and friends to release my next book. This book is one of my series about retelling the story of the bible. While growing up, I watched Smile of a Child TV, Animated stories like Heroes and Super book. I often wondered what happened behind the scene of bible stories. My perspective is to merge fiction with non fiction, desiring to see how the bible character will live in this modern age. I know I cannot say for certain how the story unfolded behind the scene but I have tried to explain it and to get the readers thinking about how the characters in the bible felt in different situations. This book helps the reader to put themselves in the shoes of the characters and find a deeper understanding of bible stories that often seem irrelevant. I am encouraging both old and young, Believer or Non Believer to pick up this book to read and get some inspiration or better understanding of this story about the birth of Jesus. If you were young Mary and you got a strange text, what will you do? This book is a good read for the family and to encourage children to read. Some of the scenes expressed in this book are asking questions like how did Joseph know that Mary was pregnant before he had a dream? How far is Galilee from Bethlehem? Were there actually three wise men who visited Jesus? How was the census done in those days? Was Jesus born on Christmas day 25th? How did Mary feel about the whole situation? How about the conflict in Joseph's mind? Grab your copies of this book as presents for your children, cousins, nieces, nephews and friends.

#### *Ghost Train to the Eastern Star* WestBow Press

This powerful and lyrical debut novel is to Syria what *The Kite Runner* was to Afghanistan; the story of two girls living eight hundred years apart—a modern-day Syrian refugee seeking safety and an adventurous mapmaker's apprentice—"perfectly aligns with the cultural moment" (*The Providence Journal*) and "shows how interconnected two supposedly opposing worlds can be" (*The New York Times Book Review*). This "beguiling" (*Seattle Times*) and stunning novel begins in the summer of 2011. Nour has just lost her father to cancer, and her mother moves Nour and her sisters from New York City back to Syria to be closer to their family. In order to keep her father's spirit alive as she adjusts to her new home, Nour tells herself their favorite story—the tale of Rawiya, a twelfth-century girl who disguised herself as a boy in order to apprentice herself to a famous mapmaker. But the Syria Nour's parents knew is changing, and it isn't long before the war reaches their quiet Homs neighborhood. When a shell destroys Nour's house and almost takes her life, she and her family are forced to choose: stay and risk more violence or flee across seven countries of the Middle East and North Africa in search of safety—along the very route Rawiya and her mapmaker took eight hundred years before in their quest to chart the world. As Nour's family decides to take the risk, their journey

becomes more and more dangerous, until they face a choice that could mean the family will be separated forever. Following alternating timelines and a pair of unforgettable heroines coming of age in perilous times, *The Map of Salt and Stars* is the "magical and heart-wrenching" (*Christian Science Monitor*) story of one girl telling herself the legend of another and learning that, if you listen to your own voice, some things can never be lost.

Hans Holzer rediscovers Christmas, from its pre-Christian beginnings to its celebration in many lands yesterday and today; from the Star in the East to the origins of holly, hymns, trees, and Santa Claus (yes, Virginia, he lived!). Through ancient astrological and astronomical charts he shows how the Three Wise Men were led from opposite ends of the earth to Bethlehem, and why they undertook the long and dangerous journey—separately—to the birthplace of Christ. Using his skills as an archaeologist, historian, and numismatist, Professor Holzer reveals the true identities of the three Kings called Caspar, Melchior, and Balthazar, focusing new light on the spiritual significance of Christmas.

#### *Star-names and Their Meanings* Emblem Editions

East Star is a Christmas story of destiny and purpose. A hardworking star named East Star, thought cleaning all the stars in heaven was his destiny and purpose, until the day he was summoned by God. A Christmas Story that will touch the hearts of all who read it.

From the New York Times bestselling author of *The Secret World of Weather* and *The Lost Art of Reading Nature's Signs*, learn to tap into nature and notice the hidden clues all around you Before GPS, before the compass, and even before cartography, humankind was navigating. Now this singular guide helps us rediscover what our ancestors long understood—that a windswept tree, the depth of a puddle, or a trill of birdsong can help us find our way, if we know what to look and listen for. Adventurer and navigation expert Tristan Gooley unlocks the directional clues hidden in the sun, moon, stars, clouds, weather patterns, lengthening shadows, changing tides, plant growth, and the habits of wildlife. Rich with navigational anecdotes collected across ages, continents, and cultures, *The Natural Navigator* will help keep you on course and open your eyes to the wonders, large and small, of the natural world.

#### *The Star in the East, a Sermon* Harvard University Press

Tracing the possible origins of the Magi's star, the author uses an ancient Roman coin as a starting point to investigate the possibility that the legendary star may in fact have been an eclipse of Jupiter and the star Aries.

[A Star in the East](#) Canongate U.S.

National Bestseller In *Ghost Train to the Eastern Star*, Theroux recreates an epic journey he took thirty years ago, a giant loop by train (mostly) through Eastern Europe, Turkey, the Caucasus, Central Asia, the Indian Subcontinent, China, Japan, and Siberia. In short, he traverses all of Asia top to bottom, and end to end. In the three decades since he first travelled this route, Asia has undergone phenomenal change. The Soviet Union has collapsed, China has risen, India booms, Burma slowly smothers, and Vietnam prospers despite the havoc unleashed upon it the last time Theroux passed through. He witnesses all this and more in a 25,000 mile journey, travelling as the locals do, by train, car, bus, and foot. His odyssey takes him from Eastern Europe, still hungover from Communism, through tense but thriving Turkey, into the Caucasus, where Georgia limps back toward feudalism while its neighbour Azerbaijan revels in oil-driven capitalism. As he penetrates

deeper into Asia's heart, his encounters take on an otherworldly cast. The two chapters that follow show us Turkmenistan, a profoundly isolated society at the mercy of an almost comically egotistical dictator, and Uzbekistan, a ruthless authoritarian state. From there, he retraces his steps through India, Myanmar, China, and Japan, providing his penetrating observations on the changes these countries have undergone. Brilliant, caustic, and totally addictive, *Ghost Train to the Eastern Star* is Theroux at his very best.

"A Star In The East" describes in many ways the decline of Europe's western culture.

**Azoth, Or, The Star in the East** Palala Press

What is the state of Christianity in China, really? Some scholars say that China is invulnerable to religion. Some say that past efforts of missionaries have failed, writing off those who were converted as nothing more than "rice Christians," or cynical souls who had frequented the missions for the benefits they provided. Some wonder if the Cultural Revolution extinguished any chances of Christianity in China. Rodney Stark and Xiuhua Wang offer a different perspective, arguing that Christianity is alive, well, and even on the rise. Stark approaches the topic from an extensive research background in both Christianity and Chinese history, and Wang provides an inside look at Christianity and its place in her home country of China. Both authors cover the history of religion in China, disproving older theories concerning not only the number of Christians, but the kinds of Christians that have emerged in the past 155 years. Stark and Wang claim that when just considering the visible Christians, those not part of underground churches, there are still thousands of Chinese being converted to Christianity each day, and forty new churches opening each week. *A Star in the East* draws on two major national surveys to sketch a close-up of religion in China. A reliable estimate is that by 2007 there were approximately 60 million Christians in China. If the current rate of growth were to hold until 2030, there would be more Christians in China—about 295 million—than in any other nation on earth. This has significant implications, not just for China but for the greater world order. It is probable that Chinese Christianity will splinter into denominations, likely leading to the same kinds of political, social, and economic ramifications seen in the West today. Whether you're new to studying Christianity in China, or whether this has been your area of interest for years, *A Star in the East* provides a reliable, thought-provoking, and engaging account of the resilience of the Christian faith in China and the implications it has for the future.
