The Green Mile, Stephen King's #1 New York Times bestselling novel, was first published twenty years ago in six original paperback installments. Inspiration for the Oscar-nominated film starring Tom Hanks about an innocent man on death row, The Green Mile is now available for the first time in e-serial form. The Bad Death of Eduard Delacroix is Volume Four. Time has run out for one of the inmates at Cold Mountain penitentiary. Eduard

Delacroix is set to make his way into the lap of Old Sparky. But first he must say good-bye—to the guards, to his fellow inmates, and to a strange creature that forever changed his life. Little does he know of the terrible fate that awaits him, and of a devilish plan of revenge. Though no execution can ever be routine, it can follow procedures put in place to minimize pain and avoid a ghastly end. But those procedures are only as good as the men carrying them out. Unfortunately for Delacroix, one of those men is Percy Wetmore. And he's determined to hear Delacroix's screams of agony echoing along the Green Mile.

Ambiance, Tourism and the City considers how tourism and urban development affect the lived ambiances of contemporary cities around the world. As most of the existing literature on sensory atmospheres says little about the intersection between tourism and atmospheric production, this book affirms the centrality of the notion of ambiance as a mode of inquiry into the making and remaking of urban places for tourist consumption. The book takes the reader into the sensory worlds of a traditional Italian marketplace, a jungle park in Kuala Lumpur, a slum in the Colombian city of Medellín, or the "sun and sand" tourism destinations in Southern Spain, among other case studies. It offers new insights into the impact of tourism on the urban environment from multidisciplinary perspectives and a wide range of geographical regions across Europe, North America, Asia, and South America. Through these contemporary case studies, the book further deepens our understanding of the ways in which "ambiances" and "atmospheres" pervade the physical regeneration and sensory transformation of contemporary tourist destinations. Conversely, this book offers insights on the effects of tourism on everyday urban experience. By bringing together a diverse group of scholars and case studies to present a global perspective on the atmospheric production of the tourist city, this

book is to serve as a valuable reference tool for researchers and undergraduate and postgraduate students with an interest in urban ambiances, tourism, cultural geography, and urban planning.

Scaring Us to Death Le Livre de Poche

Paul Edgecombe, ancien gardien-chef d'un pénitencier dans les années 1930, entreprend d'écrire ses mémoires. Il revient sur l'affaire John Caffey - ce grand Noir au regard absent, condamné à mort pour le viol et le meurtre de deux fillettes - qui défraya la chronique en 1932. La Ligne verte décrit un univers étouffant et brutal, où la défiance est la règle. Personne ne sort indemne de ce bâtiment coupé du monde, où cohabitent une étrange souris apprivoisée par un Cajun pyromane, le sadique Percy Wetmore, et Caffey, prisonnier sans problème. Assez rapidement convaincu de l'innocence de cet homme doté de pouvoirs surnaturels, Paul fera tout pour le sauver de la chaise électrique. Aux frontières du roman noir et du fantastique, ce récit est aussi une brillante réflexion sur la peine de mort. Un livre de Stephen King très différent de ses habituelles incursions dans l'horreur, terriblement efficace et dérangeant.

As the world approaches the 2015 deadline for achieving the Millennium Development Goals (MDGs), which include a goal of reducing the proportion of hungry people by half, the 2010 Global Hunger Index (GHI) offers a useful multidimensional overview of global hunger. The 2010 GHI is the fifth in an annual series that records the state of global, regional, and national hunger. The 2010 GHI shows some improvement over the 1990 GHI, falling by almost one-quarter, but overall the index for hunger in the world

remains at a level characterized as serious. The GHI captures three dimensions of hunger: insufficient availability of calories, shortfalls in the nutritional status of children, and child mortality. Accordingly, the Index includes the following three equally weighted indicators: the proportion of people who are undernourished, as estimated by the Food and Agriculture Organization of the United Nations (FAO); the prevalence of underweight in children under the age of five, as compiled by the World Health Organization (WHO); and the under-five mortality rate, as reported by the United Nations Children's Fund (UNICEF). The 2010 Index reflects data from 2003 to 2008, the most recent global data available on the three GHI components.

The Green Mile, Stephen King's #1 New York Times bestselling novel, was first published twenty years ago in six original paperback installments. Inspiration for the Oscar-nominated film starring Tom Hanks about an innocent man on death row, The Green Mile is now available for the first time in e-serial form. Coffey's Hands is Volume Three. Eduard Delacroix has grown quite attached to Mr. Jingles. But one guard, Percy Wetmore, despises Mr. Jingles...and anything that might bring happiness to an inmate. Not all guards can be like Paul. He's a man who doesn't like to see anyone suffer and has dedicated his career to making sure that the condemned men in his charge spend their last days with peace and dignity. Paul is also suffering. He has a

painful bladder infection that just won't let up. It's because of this ailment that he learns that John Coffey has the ability to heal with his touch. It's a wondrous revelation at a time when yet another man must take his final trip on the Green Mile.

Founded in 1993, the African Yearbook, now published under the auspices of the African Foundation for International Law, is the only scholarly publication devoted exclusively to the study, development, dissemination and wider appreciation of international law in Africa as a whole. Through the scholarly analysis of international legal issues of particular relevance to the African continent, it also contributes to the acceptance of, and respect for the rule of law in intra-African relations, and for the principles of international law in general. Its uniqueness however goes beyond this, for through its special themes and general articles, it has succeeded over the years to serve as an intellectual forum where the development of international law is viewed as being integral to Africa's own development. Through the study and analysis of emerging legal issues of particular relevance to Africa, such as the creation of viable continental institutions capable of promoting unity and security for the peoples of the continent, the effective protection of human rights, the need for accountability for mass killings and massive violations of the rule of law, the promotion of a rule-based democratic culture, the role of African countries in a globalizing world economy and in international trade relations, the Yearbook strives to be responsive to the intellectual needs of African countries in the area of international law, and to the continuing struggle for creating an environment conducive to the rule of law

throughout the continent. The Yearbook also provides ready access to the basic documents of African international organizations by regularly publishing the resolutions and decisions of regional and sub-regional organizations as well as the conventions, protocols and declarations adopted by pan-african agencies.

The Green Mile tells the story of two men, a prison guard and his new death row inmate, and their suddenly intertwined lives. What would it be like to walk those last 40 yards to the electric chair, knowing you were going to die there? What would it be like to be the man who had to strap the condemned man in or pull the switch? What would such a job take out of you, or even add? The Green Mile takes readers deep inside this world, and into the psyches of two men at the pivotal points in their lives. It's funny where an idea, a chance remark, can lead you. Friendly conversation about books will almost certainly lead you to Charles Dickens, and how his novels were once serialized, with readers eagerly awaiting the publication of the next installment. With few exceptions, this was a concept not attempted since the Dickens era. But now comes The Green Mile, a multi-part novel that will be published in monthly installments. National ads/media.

In this revised and expanded edition of "The Stephen King Phenomenon," Dr. Michael R. Collings re-examines the impact of Stephen King on popular culture.

The Bad Death of Eduard Delacroix

Ce scénario de Franck Darabont est la fidèle adaptation d'un récit de Stephen King dont l'intrigue se situe au cœur du pénitencier de Cold Mountain, durant la crise de 1929, dans le couloir de la mort, la fameuse ligne verte. Tom Hanks incarne à l'écran un gardien-chef qui retrace les derniers jours de la vie d'un

condamné à mort, un immense Noir, sorte de colosse au cerveau guère plus évolué que celui d'un enfant. L'homme a été accusé du meurtre de deux fillettes. Tandis qu'il attend son exécution, les gardiens vont découvrir que le prisonnier possède d'étranges pouvoirs surnaturels. Des pouvoirs qui vont bousculer certitudes et mentalités au sein, de la prison.
