Gain a new perspective for revitalizing the assistant principalship! While assistant principals play vital administrative roles, little attention has been granted to their training, selection, motivation, and job satisfaction. In this updated edition, Catherine Marshall and Richard M. Hooley focus on understanding the assistant principalship, uncovering problems,

and identifying new solutions for these important school leaders. This foundational resource provides a comprehensive study of what assistant principals do, who they are, and how these administrators-in-training can take charge of their careers. Unique issues highlighted within include Policy concerns in the assistant principal role The assistant as gateway to upper administrative mobility The importance of support and motivation The dependency on principals and their leadership style This essential handbook supports the intrinsic value of the assistant principalship, while providing direction for improving the current

system, evaluating methods of recruitment, and posing new metaphors and models for the position.

Legendary Assistant Principals are Born in July Corwin Press
Written for principals and assistant principals to read and reflect on together, this book describes the most common challenges facing today's assistant principals - and provides practical solutions. Authors Carole Goodman and Christopher Berry examine how principals and assistant principals can develop the kinds of relationships that serve to meet the needs of students, staff, and parents. Contents include: The Difference between the Principal's Job and the

Assistant Principal's Job, The Assistant Principal Role: What the Students Need, The Assistant Principal Role: What the Staff Needs, and Principal and Assistant Principal Communication: The Honest High-Wire Act. *A Truly Amazing Assistant Principal* Independently Published
Learn the ten keys to effective writing instruction! In this dynamic book, bestselling author Lori G. Wilfong takes you through today's best practices for teaching writing and how to implement them in the classroom. She also points out practices that should be avoided, helping you figure out how to update your teaching so that all students can reach success. You'll discover

how to... Make sure students have enough work in a genre before you assign writing Develop thoughtful, short writing prompts that are "infinite" and not finite Have students read and learn from master authors in the genre they are writing Create a writing community so that writing is not an isolated activity Use anchor charts and minilessons, along with rubrics and checklists Implement revising strategies, not just editing strategies, taught in context Use conferencing to grow students as thoughtful, reflective writers Let narratives be personal and creative, focusing on details and imagery Let informational writing explore a topic creatively and in depth Let argument writing

be situated in real-world application and not be limited to one-sided, "what-if" debates Every chapter begins with an engaging scenario, includes the "why" behind the practice and how it connects to the Common Core, and clearly describes how to implement the strategy. The book also contains tons of handy templates that you can reproduce and use in your own classroom. You can photocopy these templates or download them from our website at <http://www.routledge.com/books/details/9781138812444>.

I Never Asked To Be
The World's Best
Assistant Principal
 As a principal, you
 know how challenging
 it is to build a
 dedicated staff,
 encourage parental
 support, help students
 get excited about
 learning, and create a
 working school culture.
 You know that it takes
 a more than a few
 years (and surviving a
 few school events gone
 awry) to gain the trust
 of staff, students, and
 community. And you
 probably think that
 once these elements
 are in place, you'll be
 able to relax and let
 your school run like a
 well-oiled machine,
 right? Wrong. Even the
 most successful
 principals can become
 stuck in tired routines
 that inhibit
 collaboration and shut
 down opportunities for

learning and change. In *Principals Who Learn: Asking the Right Questions, Seeking the Best Solutions*, former principals Barbara Kohm and Beverly Nance encourage principals to step out of their comfort zone and pursue learning with their staff. Kohm and Nance give principals the tools to shift from being top-down, authoritarian leaders to becoming open collaborators and continual learners. The authors show principals how to *Learn to listen to all voices. *Turn "bad guys" into allies. *Develop an open and collaborative culture. *Redesign staff meetings for more effectiveness. *Resolve conflicts and solve problems. *Turn mistakes into learning opportunities.

Engaging scenarios and reflection questions further help principals re-examine their leadership practices and look at their school from new vantage points. Whether you are a new principal seeking guidance or a seasoned veteran looking to make a change, *Principals Who Learn* will reinvigorate your work and help you develop and adapt your skills to meet the ever-changing needs of your school. Barbara Kohm worked for 14 years as an elementary school principal and for 10 years as an early childhood program director. She now works as a consultant to principals in a variety of school districts. Beverly Nance worked as a high school assistant

principal and a middle school principal. She is now the co-director of the St. Louis Principals Academy and a leadership consultant and mentor for principals in a variety of school districts.
