 Insightful and entertaining, *Becoming Beyoncé: The Untold Story* is the first authoritative biography of the most famous woman in the world today and a must-have for the 'Bey Hive'. She's adored by her millions of fans, writes and performs songs that move and inspire, but Beyoncé is truly known by very few. Now highly acclaimed biographer J. Randy Taraborrelli reveals the woman behind the star. He takes us from a childhood spent performing in talent shows to finding worldwide success with her group, Destiny's Child, managed by her father Matthew. Beyoncé's first solo album, *Dangerously in Love*, went straight to number one and she has to date released a total of five albums which have sold 75 million copies. Beyoncé prefers to keep her personal life with husband Jay Z and their children carefully under lock and key. She may be a top performer, fashion idol and business mogul in her own right, but fame has come at personal sacrifice and with private heartbreak. Based on exhaustive research,

including exclusive interviews with those who have played pivotal roles in her life and career, the book reveals the hard-earned lessons 'Queen Bey' has learned about love, life, loyalty and family.

Summer Brain Quest: Between Grades 1 & 2 Little Book of Making headlines when it was launched in 2015, Omise'eke Tinsley's undergraduate course "Beyoncé Feminism, Rihanna Womanism" has inspired students from all walks of life. In *Beyoncé in Formation*, Tinsley now takes her rich observations beyond the classroom, using the blockbuster album and video *Lemonade* as a soundtrack for vital new-millennium narratives. Woven with candid observations about her life as a feminist scholar of African studies and a cisgender femme married to a trans spouse, Tinsley's "Femme-onade" mixtape explores myriad facets of black women's sexuality and gender. Turning to Beyoncé's "Don't Hurt Yourself," Tinsley assesses black feminist critiques of marriage and then considers the models of motherhood offered in "Daddy Lessons," interspersing these passages with memories from Tinsley's multiracial family history. Her chapters on nontraditional bonds culminate in a discussion of contemporary LGBT politics through the lens of the internet-breaking video "Formation," underscoring why Beyoncé's black femme-inism isn't only for ciswomen. From pleasure politics and the struggle for black women's reproductive justice to the subtext of blues and country music traditions, the landscape in this tour is populated by activists and artists (including Loretta Lynn) and infused with vibrant interpretations of Queen Bey's provocative, peerless imagery and lyrics. In the tradition of Roxanne Gay's *Bad Feminist* and Jill Lepore's best-selling cultural histories,

Beyoncé in Formation is the work of a daring intellectual who is poised to spark a new conversation about freedom and identity in America.

Killing a Colored Man's Pedigree is a provocative look at why it is neither cool nor an honor to be a "baby mama." As Harrison compellingly argues, it does not take a village to raise a child; it only takes two married parents. This confrontational in-depth look at the numbers documenting the increased poverty and violent crime blacks are experiencing is proof to Michael Harrison that black American's chickens have come home to roost and that black America is reaping what it has sown for decades. Required reading for anyone who wants to understand the problems plaguing the black community, *Killing a Colored Man's Pedigree* asks questions and provides answers about issues that are seldom if ever discussed because of political correctness. Things you'll learn:

- How the high unmarried birthrate among blacks relates to the poverty and crime that plague large parts of the black community and how, as Harrison argues, it may permanently destroy black culture in America
- Clinical and scientific research that explains the importance and presence of the alpha male role model, which is woefully absent for the majority of young blacks
- How our culture at large, both black and white, tends to worship "baby mamas" and "bad boy black actors," sports stars, musicians, rappers, and the like and how this utterly exacerbates the problem
- How modern culture encourages what Harrison terms a "phony victim status" in the black community (which trickles down into poor white culture), particularly among unwed black mothers
- How corrupt black politicians whose personal agendas far outweigh the greater good have taken over black leadership and are leading black America astray
- Practical solutions to these problems using education, media, and community outreach programs
- Harrison's dream of starting a national grass roots effort promoting greater personal responsibility, which could reverse this self-destructive trend and lead to a healthier black community and greater prosperity for all

Ringed with passion, anecdotes, and a poignant plea for black America to do an all-around better job of behaving itself and raising kids, Harrison ultimately argues for greater responsibility

as the answer to the pervasive problems facing the black community.

Weaving together personal stories, history, and analysis, *Same Family, Different Colors* explores the myriad ways skin-color politics affect family dynamics in the United States. Colorism and color bias—the preference for or presumed superiority of people based on the color of their skin—is a pervasive and damaging but rarely openly discussed phenomenon. In this unprecedented book, Lori L. Tharps explores the issue in African American, Latino, Asian American, and mixed-race families and communities by weaving together personal stories, history, and analysis. The result is a compelling portrait of the myriad ways skin-color politics affect family dynamics in the United States. Tharps, the mother of three mixed-race children with three distinct skin colors, uses her own family as a starting point to investigate how skin-color difference is dealt with. Her journey takes her across the country and into the lives of dozens of diverse individuals, all of whom have grappled with skin-color politics and speak candidly about experiences that sometimes scarred them. From a Latina woman who was told she couldn't be in her best friend's wedding photos because her dark skin would "spoil" the pictures, to a light-skinned African American man who spent his entire childhood "trying to be Black," Tharps illuminates the complex and multifaceted ways that colorism affects our self-esteem and shapes our lives and relationships. Along with intimate and revealing stories, Tharps adds a historical overview and a contemporary cultural critique to contextualize how various communities and individuals navigate skin-color politics. Groundbreaking and urgent, *Same Family, Different Colors* is a solution-seeking journey to the heart of identity politics, so that this more subtle "cousin to racism," in the author's words, will be exposed and confronted.

Morgan Parker is a fearlessly forward and forward-thinking literary star." —Terrance Hayes The only thing more beautiful than Beyoncé is God, and God is a black woman sipping rosé and drawing a lavender bath, texting her mom, belly-laughing in the therapist's office, feeling unloved, being on display, daring to survive. Morgan Parker stands at the intersections of vulnerability and performance, of desire and disgust, of tragedy and excellence. Unrelentingly feminist, tender, ruthless, and sequined, these poems are an altar to the complexities of black American womanhood in an age of non-indictments and déjà vu, and a time of wars over bodies and power. These poems celebrate and mourn. They are a chorus chanting: You're gonna give us the love we need.
