Power of Mantras

**Yajurveda Samhitā** Red Wheel/Weiser

By the correct practice of Kriya fourteen times, Maha Mudra twice, and Yoti Mudra twice, twelve years of evolution of body, mind and soul will be gained in a few minutes. Mind can do everything. Through

this practice, the time limitation in evolution is overcome, and the receptive power of the spine, brain and mind is increased, so that the Yogi knows, sees and feels all form within. Yoga is the super-method by which the evolution of body, mind and soul can be quickened. That is how the attainment of wisdom and realization, which usually takes a million years and numerous incarnations of natural evolution, is possible in one lifetime. By this exercise, the consciousness which is in the body, and which is identified with the senses, is

transferred to the spine and the brain, and thus transmitted into Superconsciousness and Cosmic Consciousness. Kriya is an initiation into Cosmic Consciousness, or the transfer of consciousness from the body to the spirit. In order to do this, one must transfer consciousness from the senses to the spine. After practicing Kriya and resting for a short while, one is able to do inspired work in connection with literature, art of science. Then intuition develops of itself, without effort, because one's consciousness is transferred from the senses to the spine and brain.

Realization can come only by the development of one's intuition. Remember that through the practice of this lesson you will contact Christ, and the prophets of this world, and through them you will find your union with God the Infinite Spirit.

The echoes of ancient Indian wisdom can be heard from the oldest of scriptures that existed many years ago. Even thousands of years before they were written down on palm leaves, the teachings were passed on from generations to generations, from the teachers to the disciples in their oral form. These works are amongst the oldest of humanity. They laid the foundation of one of the most tolerant and diverse religions in the world, the Sanatan Dharma or Hinduism, which is marked by a wide range of ethos and philosophical approaches. Covering the vastness and immensity of the ancient Indian scriptures is akin to capturing a gigantic ocean in a small pitcher. Thus, in this book, the author has tried to catch a few 'echoes' resonating with age-old wisdom and has presented them to the readers. the book

unravels the knowledge hidden inside the Samhitas, Brahmanas, Aranyakas and Upanishads of the Shruti that form the Vedas, and in the Smriti like Agamas, Dharma Shastras and so on. In short, it provides a glimpse, or rather a macro view of the ancient treasure of India.

Astronomically, the intersection points of the sun and moon - on their movements in the celestial sphere - are called Rahu and Kethu. They are also called the north node and south node. Rahu and Kethu are unimaginably huge dark shadows in space. During their transit, when their shadow falls on any planet, that planet's all-effects will be completely altered or diverted by Rahu and Kethu. Rahu and Kethu are solely responsible for a beggar to become a millionaire and a millionaire to become a beggar. This book elaborately discusses the effects of Rahu and Kethu. In the horoscope, how Rahu and Kethu are positioned, how the planets and the

houses (Bhavas) are affected by them in the birth chart are all analysed in this book. How and when the natives will be affected? To what extent they will be affected? It is because of the birth chart, the transit movement and the Dhasa Bhukthi of Rahu and Kethu? They are all clearly explained in this book with many birth charts. Kindly read this book thoroughly, analyse it with your known people's horoscope, and experience the result. It will surely give you goosebumps! Parashari Jaimini and Tajik are the three most popular systems of Vedic Astrology. Parashar gives more importance to the planets while Jaimini considers the rashis to be more important. Tajik is mainly used in Prashna Shastra and in Varshaphal. Tajik diverts slightly always from the main stream of the traditional methods and employs newer techniques of Astrology. 'Tajik Neelakanthi', of Acharya Neelakantha, which was composed in the 16th century AD, is the base of Taik Jyotish. This does not mean that Varshaphal and Prashna techniques were not practised in vedic Astrology before this. 'Uttar Kalamrit' of Kalidas mentions and describes the computation of Varshaphal dasha which is different from

the 'Mudda dasha' of Varshaphal. Apart from this, 'Shat Panchashikha' of Prithyushyas is the established classic of Prashna Shastra, which was composed centuries before 'Tajik Neelakanthi'. Ancient Kairaleeya Jyotish is also well known for considering Prashna to be their main technique. The influence of Greek and Arab culture is clearly seen on the word 'Tajik'. Arrival of the invaders from Western Asia initiated the exchange of culture between India and West Asia. This exchange introduced some newer techniques to our Vedic Astrology. One of these techniques was Tajik. This has been marked as the beginning of Tajik jyotish. Tajik word does not belong to Sanskrit. There are different opinions regarding this issue. Some scholars consider it to be a distorted form of the word 'Jatak'. Another view is that meaning of Tajik is a horse in Turkish and Persian language. The speed of this technique has been compared to that of a horse and for this reason it has been named Tajik. In any case the influence of Mohammedans on this knowledge is very clear. This is also confirmed by the other words of Tajik, namely mudda, muntha, saham and the

names of the Tajik yogas like Ithasal, Ikkabal, Ishraf, nakta, radda and khallasar etc. Moving at the average speed of  $1^\circ$  per day, Sun completes one round of the Zodiac in one year. For casting the annual horoscope we select the time when Sun reaches the longitude of the natal Sun. The horoscope cast for that date and time becomes the annual horoscope and the Varshaphal is decided on the basis of this horoscope. In a similar manner prediction for any year of the person's life can be given on the basis of the annual horoscope. In other words the annual horoscope is based on the longitude of the natal Sun and not on the date and time of birth. This also means that the date, day and time of the annual horoscope is generally different from that of the birth horoscope.

In *The Ultimate Goal*, Vikram Sood, former chief of India's external intelligence agency, the Research and Analysis Wing (R&AW), explains 'the narrative' and how a country's ability to construct, sustain and control narratives, at home and abroad, enhances its strength and position. Intelligence agencies invariably play a critical role in this, an often-indispensable tool of statecraft. A 'narrative' may not necessarily be based on truth, but it does need to be plausible, have a meaning and create a desired perception. During most of the twentieth century, intelligence agencies helped shape narratives favourable to their countries' agendas through literature, history, drama, art, music and cinema. Today, social media

has become crucial to manipulating, countering or disrupting narratives, with its ability to spread fake news disinformation, and provoke reactions. The Ancient Science of Mantras M A Center The Wrestler's Body tells the story of a way of life organized in terms of physical self-development. While Indian wrestlers are competitive athletes, they are also moral reformers whose conception of self and society is fundamentally somatic. Using the insights of anthropology, Joseph Alter writes an ethnography of the wrestler's physique that elucidates the somatic structure of the wrestler's identity and ideology. Young men in North India may choose to join an akhara, or gymnasium, where they subject themselves to a complex program of physical and moral fitness. Alter's first-hand description of each detail of the wrestler's regimen offers a unique perspective on South Asian culture and society. Wrestlers feel that moral reform of Indian national character is essential and advocate their way of life as an ideology of national health. Everyone is called on to become a wrestler and build collective strength through self-discipline.
