"Most economists think of common property as physical—a body of water, a forest—and as bounded within geographic space. In this paper, building on work in social theory, the author argues that common property can also be social-defined within symbolic space. People can be bound by well-defined symbolic agglomerations that have characteristics similar to common property. He calls these "symbolic public goods" (SPGs) and make the case that such constructs are central to understanding collective action. He illustrates the point by contrasting how conceptions of nationalism in Indonesia and India created SPGs that resulted in very different strategies of local development ... "

**Southern Economist**

This book presents an in-depth analysis of key recommendations of the consecutive state finance commissions (SFCs) across states of India in the local and national perspective. It reviews the working of SFCs and their critical role in strengthening local governments, both Panchayats and municipalities in the various states. The volume attempts to identify some of the emerging issues related to the efficacy of SFC in fiscal decentralization. It appraises nearly eighty SFC reports and actions taken thereon by the respective State Governments with contextual analysis.

"Panchayati Raj, as a system of governance at the grass roots level in rural India, has been rightly conceived as the most viable and proper mechanism of realizing the goals of democracy and decentralization. The current debate is not on its desirability but on strengthening it by identifying its weaknesses and taking care of the lacunae which are still there in spite of its constitutionalization through the historical 73rd Constitution Amendment Act. Likewise, empowerment of women and weaker sections, through a well-devised system of reservation, has not only brought about a change in the socio-political culture of these sections of society but has also led to a virtual transformation of the rural scene where people have increasingly become aware of

their rights and have started demanding their share in power. In fact, rural India today has become the embodiment of a new revolution which seeks to provide direction to the polity thereby making democracy and decentralization vibrant and feasible for those who deserve it ."

The Trend Towards Decentralization Worldwide Has Been Accompanied By Differing Perceptions On Its Costs And Benefits. Decentralization Of Power From The Centre To The Provinces, Districts And Villages, Of Course, Enables People To Participate In Decision-Making More Directly. However, Democratic Decentralization Requires More Than Just Decentralization And Devolving Power. It Also Envisages Widening Participation Of The Marginalized- Women, Minorities And The Poor- And Increasing Accountability Of Public Officials At Local Levels. Framed Against The Above Background, The Book Presents An Introductory Overview Of The Global And Regional Processes In Decentralization And Proceeds To Unfold The Dynamics Of Institutional Proliferation/Linkages, Issues Of Inclusion And Participatory Justice, Protection Of Human Rights At The Grassroots, Accountability And Transparency Under Decentralized Governance, And Social Development Perspectives Of Decentralized Planning Process. Apart From Its Broad Reflections On The Indian Scenario, The Book Captures The Specific Experience Of Kerala In Decentralization Over The Last Decade.
