White Space Is Not Your Enemy is a practical graphic design and layout guide that introduces concepts and practices necessary for producing effective visual communication across a variety of formats—from web to print. Sections on Gestalt theory, color theory, and WET layout are expanded to offer more in-depth content on those topics. This new edition features new covering current trends in web design—Mobile-first, UI/UX design, and web typography—and how they affect a designer's approach to a project. The entire book will receive an update using new examples and images that show a more diverse set of graphics that go beyond print and web and focus on tablet, mobile and advertising designs.

Londra è una città abituata al cambiamento, come ogni altra metropoli del mondo. Eppure, nella capitale inglese sopravvivono delle tradizioni che il tempo non sembra in grado di scalfire, come il tè delle cinque, i bus rossi e i buoni vecchi pub. È in questa commistione di frenetica velocità e usanze consolidate che risiede la vera anima di Londra, quella che il turista dovrebbe sempre ricercare. Annalisa Capitani, innamorata della città, ci guida in un appassionante tour che chi vuole vivere davvero Londra non può assolutamente lasciarsi sfuggire. Un viaggio che svicola dai tipici itinerari turistici, per condurci a scoprire l'essenza di un luogo sempre pulsante di vita. Palazzi e giardini nascosti, musei, ristoranti storici, feste e tradizioni: questo libro descrive tutte le tappe del viaggio a Londra più emozionante che possiate desiderare. Londra come non l'avete mai vista! Un itinerario lungo le attrazioni più interessanti e peculiari di Londra • Prepararsi alla visita con un tè e uno scone al Victoria & Albert • Visitare Kew Gardens in qualunque stagione • Visitare Buckingham Palace e lasciarsi andare alla febbre per tutto quello che è royal • Visitare

il vecchio quartiere italiano di Clerkenwell • Ammirare gli spitfire e i missili tedeschi caduti su Londra all'Imperial War Museum • Attraversare il Tamigi a piedi e salire sull'albero del Cutty Sark • Perdersi nel parco dei cervi di Richmond • Visitare la Whitechapel Gallery per le ultime novità di arte contemporanea • Dormire con i leoni allo zoo di Londra • Visitare gli studios di Harry Potter a Watford Annalisa Capitani Classe 1984, vive da quindici anni a Londra. Storica dell'arte, ha lavorato a lungo nei musei e ha scritto di viaggi per numerosi magazine inglesi e internazionali, collaborando a diverse guide e siti specializzati. G. Sebald, now with a gorgeous new cover by the famed designer Peter Mendelsund The Rings of Saturn—with its curious archive of photographs—records a walking tour of the eastern coast of England. A few of the things which cross the path and mind of its narrator (who both is and is not Sebald) are lonely eccentrics, Sir Thomas Browne's skull, a matchstick model of the Temple of Jerusalem, recession-hit seaside towns, wooded hills, Joseph Conrad, Rembrandt's "Anatomy Lesson," the natural history of the herring, the massive bombings of WWII, the dowager Empress Tzu Hsi, and the silk industry in Norwich. W.G. Sebald's The Emigrants (New Directions, 1996) was hailed by Susan Sontag as an "astonishing masterpiece perfect while being unlike any book one has ever read." It was "one of the great books of the last few years," noted Michael Ondaatje, who now acclaims The Rings of Saturn "an even more inventive work than its predecessor, The Emigrants."

"The Queue ... has drawn comparisons to Western classics like George Orwell's 1984 and The Trial by Franz Kafka. It represents a new wave of dystopian and surrealist fiction from Middle

Eastern writers who are grappling with the chaotic aftermath and stinging disappointments of the Arab Spring." -- The New York Times Winner of the English PEN Translation Award In a surreal, but familiar, vision of modern day Egypt, a centralized authority known as 'the Gate' has risen to power in the aftermath of the 'Disgraceful Events,' a failed popular uprising. Citizens are required to obtain permission from the Gate in order to take care of even the most basic of their daily affairs, yet the Gate never opens, and the queue in front of it grows longer. Citizens from all walks of life mix and wait in the sun: a revolutionary journalist, a sheikh, a poor woman concerned for her daughter's health, and even the brother of a security officer killed in clashes with protestors. Among them is Yehia, a man who was shot during the Events and is waiting for permission from the Gate to remove a bullet that remains lodged in his pelvis. Yehia's health steadily declines, yet at every turn, officials refuse to assist him, actively denying the very existence of the bullet. Ultimately it is Tarek, the principled doctor tending to Yehia's case, who must decide whether to follow protocol as he has always done, or to disobey the law and risk his career to operate on Yehia and save his life. Written with dark, subtle humor, The Queue describes the sinister nature of authoritarianism, and illuminates the way that absolute authority manipulates information, mobilizes others in service to it, and fails to uphold the rights of even those faithful to it.

World-renowned economist Klaus Schwab, Founder and Executive Chairman of the World Economic Forum, explains that we have an opportunity to shape the fourth industrial revolution, which will fundamentally alter how we live and work. Schwab argues that this revolution is different in scale, scope and complexity from any that have come before. Characterized by a range of new technologies that are fusing the physical, digital and biological worlds, the developments are affecting all disciplines, economies, industries and governments, and even challenging ideas about what it means to be human. Artificial intelligence is already all around us, from supercomputers, drones and virtual assistants to 3D printing, DNA sequencing, smart thermostats, wearable sensors and microchips smaller than a grain of sand. But this is

just the beginning: nanomaterials 200 times stronger than steel and a million times thinner than a strand of hair and the first transplant of a 3D printed liver are already in development. Imagine “smart factories” in which global systems of manufacturing are coordinated virtually, or implantable mobile phones made of biosynthetic materials. The fourth industrial revolution, says Schwab, is more significant, and its ramifications more profound, than in any prior period of human history. He outlines the key technologies driving this revolution and discusses the major impacts expected on government, business, civil society and individuals. Schwab also offers bold ideas on how to harness these changes and shape a better future—one in which technology empowers people rather than replaces them; progress serves society rather than disrupts it; and in which innovators respect moral and ethical boundaries rather than cross them. We all have the opportunity to contribute to developing new frameworks that advance progress.

The Lost Flowers of Alice Hart Verso

Now a new series on Peacock with Rainn Wilson, *THE GEOGRAPHY OF BLISS* is part travel memoir, part humor, and part twisted self-help guide that takes the viewer across the globe to investigate not what happiness is, but WHERE it is. Are people in Switzerland happier because it is the most democratic country in the world? Do citizens of Qatar, awash in petrodollars, find joy in all that cash? Is the King of Bhutan a visionary for his initiative to calculate Gross National Happiness? Why is Asheville, North Carolina so damn happy? In a unique mix of travel, psychology, science and humor, Eric Weiner answers those questions and many others, offering travelers of all moods some interesting new ideas for sunnier destinations and dispositions.

This book examines the evolution of the phenomenon and explores the genesis of overtourism and the system dynamics underlining it. The 'overtourism' phenomenon is defined as the excessive growth of visitors leading to overcrowding and the consequential suffering of residents, due to temporary and often seasonal tourism peaks, that lead to permanent changes in lifestyles, amenities and well-being. Enormous tensions in overtourism affected destinations have driven the intensification of policy making and scholarly attention toward seeking antidotes

to an issue that is considered paradoxical and problematic. Moving beyond the 'top 10 things you can do about overtourism', this book examines the evolution of the phenomenon and explores the genesis of overtourism as well as the system dynamics underpinning it. With a rigorous scientific approach, the book uses systems-thinking and contemporary paradigms around sustainable development, resilience planning and degrowth; while considering global economic, socio-political, environmental discourses. Researchers, analysts, policy makers and industry stakeholders working within tourism as well as those within the private sector, community groups, civil society groups and NGOs will find this book an essential source of information.

Subterraneans IntroBooks

An enchanting and captivating novel about how our untold stories haunt us — and the stories we tell ourselves in order to survive. After her family suffers a tragedy, nine-year-old Alice Hart is forced to leave her idyllic seaside home. She is taken in by her grandmother, June, a flower farmer who raises Alice on the language of Australian native flowers, a way to say the things that are too hard to speak. Under the watchful eye of June and the women who run the farm, Alice settles, but grows up increasingly frustrated by how little she knows of her family's story. In her early twenties, Alice's life is thrown into upheaval again when she suffers devastating betrayal and loss. Desperate to outrun grief, Alice flees to the dramatically beautiful central Australian desert. In this otherworldly landscape Alice thinks she has found solace, until she meets a charismatic and ultimately dangerous man. Spanning two decades, set between sugar cane fields by the sea, a native Australian flower farm, and a celestial crater in the central desert, *The Lost Flowers of Alice Hart* follows Alice's unforgettable journey, as she learns that the most powerful story she will ever possess is her own.

Written over the course of three days and three nights, *The Subterraneans* was generated out of the same kind of ecstatic flash of inspiration that produced another one of Kerouac's early classics, *On The Road*. Centering around the tempestuous breakup of Leo Percepied and Mardou Fox—two denizens of the 1950s San Francisco underground—*The Subterraneans* is a tale of dark alleys and smoky rooms, of artists, visionaries, and adventurers existing outside mainstream America's field of vision.

Romantica, malinconica, poliedrica, colorata e in perenne cambiamento. Classica e tradizionale, innovativa e sorprendente, Parigi è una metropoli unica al mondo, da visitare assolutamente, almeno una volta nella vita. Questo libro vuole essere una guida per vivere la città come solo i suoi abitanti sanno fare, attraverso 101 percorsi insoliti e curiosi. Così, girando per la Ville lumière, potrete perdervi tra gli atelier degli artisti di Montmartre o riposarvi sulle sedie del Senato, mangiare ostriche nei mercati rionali e andare in spiaggia sulle rive della Senna. E ancora, fare un picnic quasi ogni giorno dell'anno o darvi un appuntamento galante in un cimitero, pedalare per le strade sulle bici del Comune e diventare esperti assaggiatori di formaggi e macarons. Scoprire infine gli imperdibili bistrot e gli eleganti caffè, i parchi e i giardini, i luoghi d'arte e alcuni tra i più bei musei d'Europa. Crocevia di culture, punto di arrivo e di partenza, la capitale francese è un luogo dai mille volti, una città in cui non si può non ritornare, cercando ogni volta avventure nuove e straordinarie da vivere. Sabina Ciminariè nata a Roma, si è laureata in Letteratura italiana moderna e contemporanea alla Sapienza e ha cominciato a guardare oltralpe per motivi di studio: dottore di ricerca in Italia e in Francia, è approdata nella Ville lumière e non l'ha più lasciata. Vive fra Roma e Parigi, le città che considera più belle al mondo: quanto basta per farla sentire fortunata.

Facciamo un gioco facile, possibile e divertente: cerchiamo di scoprire una Roma insolita e colorata, una Roma dove il caos e lo smog lasciano il passo alla fantasia e all'invenzione. La nostra amata metropoli può diventare un luogo a dimensione di bambino, dove anche gli adulti riscoprono il lato allegro e spensierato della città. È sufficiente osservare la Capitale, culla di storia e di cultura, con gli occhi dei figli e allora sarà facile trasformare l'ambiente urbano in un luogo vivace e gioioso, dove poter chiacchierare con le statue di antichi eroi, accompagnare la Barbie a fare la conoscenza di un'antica bambola romana, viaggiare in 3D nell'antica Roma, mettersi a tavola con gli animali del Bioparco, riscoprire a Trastevere qualche vecchio gioco di strada e tirare la coda ai corazzieri per scoprire di che cosa è fatta, oppure organizzare una super festa di compleanno nella

città più bella del mondo. Elisabetta Putini, in 101 itinerari condivisi da grandi e piccini, prende per mano i genitori e i loro figli e mostra una Roma genuina e istintiva. Una Roma da vedere e da vivere, ma anche da immaginare. Perché, come direbbe tuo figlio, «facciamo che la città oggi è un grande parco giochi?». Elisabetta Putini romana, è autrice di libri per l'infanzia e di guide per bambini. È socia fondatrice della Cooperativa ArteinGioco che da anni progetta e conduce laboratori e itinerari didattici "in gioco" per i piccoli visitatori dei musei e dei luoghi della Capitale. Per il Comune di Roma ha realizzato molti opuscoli divulgativi storico-artistici.

In this witty and exuberant collection of feminist retellings of traditional Japanese folktales, humans live side by side with spirits who provide a variety of useful services--from truth-telling to babysitting, from protecting castles to fighting crime. A busybody aunt who disapproves of hair removal; a pair of door-to-door saleswomen hawking portable lanterns; a cheerful lover who visits every night to take a luxurious bath; a silent house-caller who babysits and cleans while a single mother is out working. Where the Wild Ladies Are is populated by these and many other spirited women—who also happen to be ghosts. This is a realm in which jealousy, stubbornness, and other excessive "feminine" passions are not to be feared or suppressed, but rather cultivated; and, chances are, a man named Mr. Tei will notice your talents and recruit you, dead or alive (preferably dead), to join his mysterious company. In this witty and exuberant collection of linked stories, Aoko Matsuda takes the rich, millenia-old tradition of Japanese folktales—shapeshifting wives and foxes, magical trees and wells—and wholly reinvents them, presenting a world in which humans are consoled, guided, challenged, and transformed by the only sometimes visible forces that surround them.

Prefazione di Luca Bizzarri Siate stronze, siate cattive, siate spietate Le donne troppo spesso dimenticano che il maschio è un animale imperfetto e che, anche quando è innamorato, tradisce, ferisce e ha sempre qualcosa da farsi perdonare. Qualsiasi donna ricorda, nel suo passato sentimentale, almeno una ferita da parte di un uomo e avrà desiderato, anche solo per pochi attimi, di ricambiare il favore. Non basta essere stronze. Bisogna imparare a essere cattive. Questo manuale vuole dare una risposta alla

sete di vendetta della femmina ferita, attraverso consigli pratici, tecniche utili e qualche trucco poco educato per riuscire a farlo soffrire, colpendolo là dove fa più male in 101 modi crudeli e spietati, ma meritati. Daniela Farnese è nata a Napoli e vive tra Padova e Milano. Ha un passato da attrice teatrale e una laurea in Lingue e letterature orientali. Lavora da anni come organizzatrice di eventi e scrive per riviste, radio e portali web. Dal 2003 cura il seguitissimo blog www.dottoressadania.it, in cui parla di satira, sesso e amore. Ad aprile 2011 ha esordito in televisione con il programma Il punto D.

Milan is the European fashion capital with one of the world's most unique luxury fashion districts where the leaders of some of the most exclusive fashion houses are still living and working today. It's the Italian city whose skyline has changed more than any, and whose fashion industry has extended to encompass the worlds of design, restaurants, bars, exhibition spaces, hotels and more. Whether you're looking for designer labels within the city's luxury fashion district, prefer to browse the city's boutiques or pick up some quality vintage at the city's vintage shops and markets, this is the guide that will tell you where to go. Split into geographical sections along with relevant maps, cultural highlights and suggestions for where to eat and drink, it places Milan as the city of fashion within the context of Italian fashion history and a city, and brings the stories of its people to life. Why did Milan become Italy's fashion capital? And what does it offer the fashion lover as a city today?

In The Novels of Philip K. Dick, Kim Stanley Robinson says that "In Milton Lumky Territory . . . is probably the best of Dick's realist novels aside from Confessions of a Crap Artist," and calls it a "bitter indictment of the effects of capitalism." Dick, on the other hand, in his forward, says "This is actually a very funny book, and a good one, too." Milton Lumky territory is both an area of the western USA and a psychic terrain: the world and world-view of the traveling salesman. The story takes place in Boise, Idaho, with

some extraordinary long-distance driving sequences in which our hero (young Bruce Stevens) drives from Boise to San Francisco, to Reno, to Pocatello, to Seattle, and back to Boise in search of a good deal on some wholesale typewriters. He falls under the spell of an attractive older woman, and of Milton Lumky, a middle-aged paper salesman whose territory is the Northwest. And then Bruce and the others slowly sink into the whirlpool of Bruce's immature personal obsessions and misperceptions. A compassionate and ironic portrayal of three characters enmeshed in a sticky web of everyday events, who have a basic failure to communicate, In Milton Lumky Territory stands out among Dick's early works. *The Fashion Lover's Guide to Milan* Cambridge University Press An ever-increasing proportion of our lives is spent in supermarkets, airports and hotels, on motorways or in front of TVs, computers and cash machines. This invasion of the world by what Marc Augé calls "non-space" results in a profound alteration of awareness: something we perceive, but only in a partial and incoherent manner. Augé uses the concept of "supermodernity" to describe a situation of excessive information and excessive space. In this fascinating essay he seeks to establish an intellectual armature for an anthropology of supermodernity.

Times are changing and the labor markets are under immense burden from the collective effects of various megatrends. Technological growth and grander incorporation of economies along with global supply chains have been an advantage for several workers armed with high skills and in growing occupations. However, it is a challenge for workers with low or obsolete skills in diminishing zones of employment. Business models that are digitalized hire workers as self-employed instead of standard employees. People seem to be working and living longer, but they experience many job changes and the peril of skills desuetude. Inequalities in both quality of job and earnings have increased in several countries. The depth and pace of digital transformation will probably be shocking. Industrial robots have already stepped in and artificial intelligence is making its advance too. Globalization and technological change predict the great potential for additional developments in labor market performance. But people should be ready for change. A progression of creative annihilation is probably under way, where some chores are either offshored or given to robots. A better

world of for jobs cannot be warranted - a lot will be contingent on devising the right policies and institutes in place.
