## **AVILA BROCK**

---

**Folens One a Week Maths** Folens Limited  
Part of a progressive course of mental maths, designed to fit in with current maths schemes and covering both oral and mental maths. Pupils work through one double-page spread per week: the right-hand page

contains five photocopiable activities and there are ten-minute oral maths activities.

*Maths A&C Black*  
Young learners excel in short bursts, so this maths skills book from Carol Vorderman will help them improve their maths and problem solving abilities without growing bored or restless. The games and tests included take a short amount of time,

approximately ten minutes, meaning maximum fun for maximum effect.  
*The New Maths Plus*  
Revision Series  
Exam Board: AQA, Edexcel, OCR & WJEC  
Eduqas Level: GCSE  
Grade 9-1 Subject: Maths  
First Teaching: September 2015, First Exams: June 2017  
*Folens Maths Programme*  
Folens Limited

Active Maths Practice & Homework 4 is arranged in units, which provide an open-ended task for the week, exercises in mental computation, review of concepts tackled in the previous week, and ample practice of the current week's work. Active Maths Practice & Homework 4 is ideal for homework or extra practice in the classroom.

*Folens Maths Programme*  
Folens Limited  
Folens Maths Programme provides a complete course for Key Stage 3 and offers comprehensive

support in implementing the mathematics strand of the National Strategy. The Folens Maths Programme comprises: a choice of two differentiated Pupil Books for each of Years 7-9; a Teacher File for each term of Years 7-9; a set of CD-ROMs containing [PowerPoint registered] presentations for every lesson in the series. The Pupils' Books are designed for use in teacher-led lessons, where textbooks are preferred to photocopiable sheets. There is one upper tier

Pupils' Book (red) and one lower tier Pupils' Book (purple) for each of Years 7, 8 and 9. The Teacher's File for each term is divided into units of work that concentrate on topics and learning objectives from one or more of the strands of the NNS. Each unit comprises detailed lesson plans, photocopiable resources and pupil activity sheets. Every lesson begins with an oral and mental starter, followed by a differentiated teacher-led main activity, and ends with a plenary

session. Available separately alongside the new edition are PowerPoint registered] presentations, which support the mental and oral starters at the beginning of each lesson, as well as the whole-class lessons. The animation feature of PowerPoint registered] can help with the understanding of new concepts and make practice or revision of topics more stimulating. Each presentation is split into small steps that give the teacher full control over the pace of delivery.

### **Maths (Age 8-9) Extra Test Book (Class Progress Tests Series)**

#### **10 Minutes a Day**

This is part of a progressive course of mental maths, designed to fit in with current maths schemes and covering both oral and mental maths. Pupils work through one double-page spread per week: the right-hand page contains five photocopiable activities and there are ten-minute oral maths activities.

Mental maths skills are essential for all age groups and this series of six books provides lots and lots of practice of number facts to make sure children are really up to speed with their mental maths! Each page features four columns of mental maths questions that children are challenged to complete in less than one minute. Answers are provided, also arranged in columns for ease of marking. When used on a regular basis, improvements in accuracy and speed will soon begin

to show.

GCSE Maths in a Week:

Higher Tier Cambridge  
University Press

Revise all the main GCSE Maths topics in just one week with this 7-day revision programme. Concise explanations, summary boxes and quick tests will help you to achieve the best results in the shortest time. All of the essential Maths topics are broken down in this effective revision guide. Cover everything you need to learn for the exam in this 7-day plan that includes GCSE-style

exam questions and easy-to-follow topic discussions. Included in this book: \* all the essential topics, broken down into a manageable 7-day programme \* concise explanations that ensure each topic can easily be covered in no more than 30 minutes \* summary boxes that provide a final recap of the key points \* quick test questions to check recall and understanding \* GCSE-style questions for exam preparation  
**GCSE Maths in a Week: Foundation Tier** Folens

Limited
