Let us endeavor to see things as they are, and then enquire whether we ought to complain. Whether to see life as it is, will give us much consolation, I know not; but the consolation which is drawn from truth if any there be, is solid and durable: that which may be derived from error, must be, like its original, fallacious and fugitive. Samuel Johnson, Letter to Bennet Langton (1758) Attorneys and clients make hundreds of decisions in every litigation case. From initially deciding which attorney to retain to deciding which witnesses to call at trial, from deciding whether to file a complaint to deciding whether to appeal a verdict, attorneys and clients make multiple, critical decisions about strategies, costs, arguments, valuations, evidence and negotiations. Once made, these decisions are scrutinized by an opponent intent on exploiting the consequences of any mistake. In this intense and adversarial arena, decision-making errors often are transparent, irreversible and dispositive, wielding the power to bankrupt clients and dissolve law firms. Although attorneys and clients may

regard sound decision making as incidental to effective lawyering, sound decision making actually is the essence of effective lawyering. An attorney's knowledge, intelligence and experience are inert resources until the attorney decides how to deploy those skills to serve the client's interests. Those decisions, in turn, largely determine a case's course and outcome.

Written by 27 World Bank experts, this book draws on the Bank's unique global capabilities and experience to promote an understanding of key global issues that cannot be solved by any one nation alone in an increasingly interconnected world. It describes the forces that are shaping public and private action to address these issues and highlights the Bank's own work in these areas. Covering four broad themes (global economy, global human development, global environment, and global governance), this comprehensive volume provides an introduction to today's most pressing global issues -- from poverty.

In the highly praised *The Market for Virtue*, David Vogel presents a clear, balanced analysis of the contemporary corporate social responsibility (CSR) movement in the United States and Europe. In this updated paperback edition, Vogel discusses recent CSR initiatives and responds to new developments in the CSR debate. He asserts that while the movement has achieved success in improving some labor, human rights, and environmental practices in developing countries, there are limits to improving corporate conduct without more extensive and effective government regulation. Put simply, Vogel believes that there is a market for virtue, but it is limited by the substantial costs of socially responsible business behavior. Praise for the cloth edition: "The definitive guide to what corporate social responsibility can and cannot accomplish in a modern capitalist economy."—Robert B. Reich, Brandeis University, and former U.S. Secretary of Labor "Vogel raises a number of excellent points on the present and future of CSR."—Working Knowledge, Harvard

Business School "A useful corrective to the view that CSR alone is the full answer to social problems."—Business Ethics "The study combines sound logic with illustrative cases, and advances the sophistication of the CSR debate considerably." —John G. Ruggie, Harvard University, co-architect of UN Global Compact

A prosperous economy goes hand in hand with a competent, impartial, and efficient legal system. International investment is only possible when the business parties are confident that adequate dispute resolution possibilities exist. A conference on "Arbitration in China" was held by the Association for International Arbitration (AIA) in March 2009. This book - a product of the conference - highlights the newest opportunities and updates - for lawyers, arbitrators, mediators, and investors - about arbitration and mediation in the event a dispute were to arise with Chinese partners. The book includes the conference's opening remarks, presented by the president of the AIA, Johan Billiet, who highlights the differences between Chinese and 'Western' arbitration. Other contributions include: the issue of mediation and arbitration in China * International Chamber of Commerce arbitration in China * arbitration differences between China International Economic and Trade Arbitration Commission and other Asian institutions, such as Hong Kong International Arbitration Center, Singapore International Arbitration Center, Korean Commercial Arbitration Board, and Japan Commercial Arbitration Association * recent developments in Chinese arbitration * the issue of recognition and enforcement of arbitral awards in China.

Upcoming book with candid, emotive & intriguing narrative delving into personal experiences of a woman leader through her journey in corporate environment. The book, 'Can I have it all?' is written as a memoir of the author's evolving identity. Nuanced, poignant and powerful, it touches upon her struggles in the proverbial corporate jungle, juxtaposed with a heartwarming account of a mother balancing a healthy home and work life. It brings to life the dilemmas and challenges that women face through various stages of their lives such as education, marriage, maternity and mobility, as they aim to make it big in the corporate world. The career journey of an ordinary woman from a small town in India, 'Can I have it All?' is a compelling validation of how one can challenge social norms and stereotypes, around gender, race and other deep-rooted biases. It provides an honest insight to anyone who wishes to understand the elements that formulate parts of one's leadership journey and lends readers the courage to challenge existing paradigms that create a hindrance in furthering their careers. Covering themes such as working with senior stakeholders, challenging colleagues, navigating workplace politics, indulging in introspection and building a circle of trust with mentors, 'Can I have it All?' is every bit gripping as it is relevant for everyone, across cultures, geographies gender or age!

Can I Have It All Springer Science & Business Media

Timely and pathbreaking, *Securing the Peace* is the first book to explore the complete spectrum of civil war terminations, including negotiated settlements, military victories by governments and rebels, and stalemates and ceasefires. Examining the outcomes of all civil war terminations since 1940,

Monica Toft develops a general theory of postwar stability, showing how third-party guarantees may not be the best option. She demonstrates that thorough security-sector reform plays a critical role in establishing peace over the long term. Much of the thinking in this area has centered on third parties presiding over the maintenance of negotiated settlements, but the problem with this focus is that fewer than a quarter of recent civil wars have ended this way. Furthermore, these settlements have been precarious, often resulting in a recurrence of war. Toft finds that military victory, especially victory by rebels, lends itself to a more durable peace. She argues for the importance of the security sector--the police and military--and explains that victories are more stable when governments can maintain order. Toft presents statistical evaluations and in-depth case studies that include El Salvador, Sudan, and Uganda to reveal that where the security sector remains robust, stability and democracy are likely to follow. An original and thoughtful reassessment of civil war terminations, *Securing the Peace* will interest all those concerned about resolving our world's most pressing conflicts.

The US security state is everywhere in cultural products: in army-supported news stories, TV shows, and video games; in CIA-influenced blockbusters and comics; and in State Department ads, broadcasts, and websites. *Hearts and Mines* examines the rise and reach of the US Empire's culture industry - a nexus between the US's security state and media firms and the source of cultural products that promote American strategic interests around the world. Building on Herbert I. Schiller's classic study of US Empire and communications, Tanner Mirrlees interrogates the

symbiotic geopolitical and economic relationships between the US state and media firms that drive the production of imperial culture.

Before you can influence decisions, you need to understand what drives them. In *The Choice Factory*, Richard Shotton sets out to help you learn. By observing a typical day of decision-making, from trivial food choices to significant work-place moves, he investigates how our behaviour is shaped by psychological shortcuts. With a clear focus on the marketing potential of knowing what makes us tick, Shotton has drawn on evidence from academia, real-life ad campaigns and his own original research. *The Choice Factory* is written in an entertaining and highly-accessible format, with 25 short chapters, each addressing a cognitive bias and outlining simple ways to apply it to your own marketing challenges. Supporting his discussion, Shotton adds insights from new interviews with some of the smartest thinkers in advertising, including Rory Sutherland, Lucy Jameson and Mark Earls. From priming to the pratfall effect, charm pricing to the

curse of knowledge, the science of behavioural economics has never been easier to apply to marketing. The Choice Factory is the new advertising essential.

This beautifully profound four color publication includes photos and women's personal words and poetry from around the world. Printed in English, the collection gives the reader the understanding that all women, no matter what age, culture, race, or religion, share similar feelings about themselves and their lives. Susan B and Me is at the amusing, heart wrenching, and thought-provoking. The book's underlying questions ask why the women's movement has stalled worldwide, and what early suffragists would think of contemporary women. The book was produced in honor of the 100th year death anniversary of Women's Rights Champion, Susan B. Anthony. This book is ideal for women's studies groups and classes.

Filmatised in 2013 and the official recipient of three Oscars,

Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807- c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.
